

Master of Business Administration (MBA) Course Planning Guide

Part I Business Core Courses

If you have waived courses (see acceptance letter from Graduate College of Management) you will write "waive" in the grade received box.

Course Name & No.	Sem/Yr	Credit	Grade
MS 600 Mathematical Analysis for Managers			
MBA AF 601 Economics for Managers (pre-requisite MBAMS 600)			
MBA AF 610 Accounting for Managers (pre-requisite MBAMS 600)			
MBA AF 620 Financial Management (pre-requisite MBA AF601)			
MBAMS 630 Statistical Analysis for Managers (pre-requisite MBAMS 600)			
MBAMS 635 Operations Management (pre-requisite MBAMS 630)			
MBAMS 640 Computer Info. Processing Systems (no prerequisite)			
MBAMGT 650 Organizational Analysis & Skills (enrollment req'd in first semester)			
MBAMGT 660 Business and It's Environment (pre-requisite MBAMGT 650)			
MBAMKT 670 Marketing Management (no prerequisite)			
MBAMGT 689 Strategic Management (to be taken final semester)			

Part II Business Electives

Students are required to complete **(8)** electives total.

- **(4)** of those electives must range over different functional areas: **ACCT, FIN, OPS, IS, MKT, MGT or COM.**
- **(1)** course out of the eight total electives must have an international focus.
- **Functional Area and Specializations:** While some courses may count for more than 1 functional area, each course may only be used to satisfy 1 functional area. Conversely, if a course counts toward more than 1 specialization, it can satisfy each specialization. (*Example: MBA AF 616 Financial Statement Analysis satisfies **either** Accounting or Finance for a Functional Area, but it satisfies **both** Accounting and Finance for each of those specializations.*)
- Students are not required to complete a specialization. If you decide you would like to specialize, please see the department for more information.
- To enroll in elective courses students must waive or complete the pre-requisite (ie: to enroll in a finance elective you must first complete MBA AF 620)
