

One Year Retention Rates for Fall Entrants 1997-2001 Cohorts

Notes on All Tables

- Native Americans are not reported because of small N-size, but they are included in the “All UMB” rates as are those with missing race/ethnicity.
- Cape Verdeans are not reported in a stand alone category because of small N-size, but are reported as part of the Black NH category as they would be for national reporting.
- Freshman or transfer status is determined from the Admissions File
- Freshman or higher level class standing is determined by the number of transfer credits noted in the Admissions File.
 - This does not always match the credits at the beginning of the student’s first semester as noted in the Enrollment File.

By Race/Ethnicity for All UMass Boston

Retention Rates by College Begin on the Following Page

By College within UMass Boston

Notes on College Reporting

- The college is the college to which the student was admitted.
- The student is counted as retained if s/he was enrolled in any college at UMass Boston in the first fall semester after the year of first enrollment.
- All CPCS students are counted as enrolling full time.
- The overwhelming majority of CPCS transfer students are listed as freshman transfers because the Admissions File has a 0 for transfer credits and the Enrollment File has a 0 for credits at the beginning of the first semester for many of them.
- Cells with at least 1 but fewer than 5 students will be marked with an “N”. Those with a zero students will be marked “NA”.
