

TWO ADVENTURES / FOUR TRIPS FOR YOU THIS SUMMER.

SCIENCE AT SEA

Aug 12th and Aug 26th, 2009; 12:00PM - 2:00 PM

Join UMass Boston faculty as we uncover the mysteries of our marine environment. This two hour boat cruise aboard the *M/V Columbia Point* will include towing plankton nets through the water and stops to haul up lobster pots. You will have a chance to participate in exploring the marine life in the harbor, and learn about how human interaction affects the marine environment. This hands on cruise is open to all ages.

SPECTACLE ISLAND

Aug 20th and Sept 2nd, 2009; 12:00PM - 2:00 PM

This popular two-hour adventure begins with a 20 minute narrated cruise through Boston Harbor, where you will experience the rich history and geography of the islands. Disembark on the Island and explore for an hour.

Spectacle Island is a fun, lively and newly opened island which includes a “green” visitors center, a life-guarded swimming beach, panoramic views of the harbor and much more to explore. There is a café on this island where you can buy sandwiches, seafood and cold drinks.
