The Traditional BS Nursing Program
Our accredited BS program prepares students for rewarding careers in professional nursing practice. You may consider acute adult care, maternal-child, mental health, perioperative, community, rehabilitation, pediatric, geriatric or long-term care, upon graduation.

Our program of study fully prepares students for the national licensure exam (NCLEX-RN) and graduate level nursing education study.

Application Requirements

**Freshmen:**
Application  
High school transcript  
SAT-1 or ACT  
500 word essay  
Academic Recommendation Letter

**Transfer:**
Application  
All post-secondary transcripts  
TEAS Exam Score  
500 word essay  
Academic recommendation letter  
If you have completed less than 24 transferable credits, you must also submit:  
High school transcript  
SAT-1 or ACT if you graduated from high school or received a GED within the last three years.

**Degree Requirements**
123 credits.  
Coursework firmly based in the liberal arts and the social and biological sciences, culminating in an intensive study of the art and science of nursing practice, theoretically and clinically.

Full-time freshmen students can complete the traditional program in four academic years, a total of eight semesters.

Note: Our clinical nursing education program requires time-intensive study and commitment.

**Faculty**
Students learn alongside world renowned faculty, stellar in teaching, scholarly achievements, practice, research, and service.

**Student Support Mechanisms**
Students may be eligible to receive funding to support their undergraduate studies through these available mechanisms:
- Financial Aid
- Fellowships
- Grants

Center for Clinical Education and Research (CCER)
The CCER is a state-of-the-art center, which houses the nursing lab and simulation suite. It provides a technologically sophisticated learning environment that mimics the clinical setting and allows students to think and act like a nurse. The experiential nature of the center enhances students’ development of psychomotor, assessment, clinical reasoning, communication, and collaborative skills. The center aims to improve the safety and quality of care provided by our students.

Student Support Services
A range of academic and clinical support services are offered to students. These include advising, open lab, academic tutoring, clinical tutoring, workshops, review sessions, and computerized supplemental instruction. Inquire in the CCER about these services.

Clinical Placements
Students greatly benefit from clinical learning experiences at Greater Boston’s finest healthcare Institutions such as Brigham and Women’s Hospital, Beth Israel Deaconess Medical Center, Children’s Hospital, Massachusetts General Hospital, McLean Hospital, Boston Medical Center, Cambridge Health Alliance, St. Elizabeth’s Hospital, Good Samaritan Hospital, and the VA Medical Centers, among many others.

Academic Service Partnerships
Our innovative academic service partnerships provide unmatched opportunities for clinical education and collaboration.
