A Showcase of PhD Student Research and Leadership Posters:
“Focus on Evidence and Policy for a Healthier Environment”

The Nursing Section of the New York Academy of Medicine is an active community of Academy Fellows, Members and Students that include scholars, academics, researchers and executives. One of the many goals of the Nursing Section is to promote the development of aspiring nurse leaders in the discipline and developing skills through opportunities that bring Fellows and Members together with PhD students for mentoring the next generation to advance health in our region. By hosting an “Evening for Social and Academic Discourse,” the FIRE planning group of 10 PhD Program Directors and students hope to stimulate ideas and nurture collaboration via a showcase of student research and policy poster displays.

- The “FIRE” Group: PhD program directors and students from 10 Tri-State Area schools (NY, NJ, CT) including Adelphi, CUNY, Columbia, NYU, Molloy, Pace, Rutgers, Seton Hall, SUNY Stony Brook, Yale
- The “FIRE” Main Mission: “Planning ways to connect our PhD students for networking and collaboration.”

Objectives for the “Showcase”:
- Become aware of the breadth of student research and leadership activities across programs in the region that may complement and enhance one another;
- Break down walls of competition and replace them with collaboration;
- Share our passion for research and scholarship among PhD students and faculty across programs;
- Share ideas and lessons learned in a socially engaging and stimulating environment.
