Friday Harbor Labs: http://depts.washington.edu/fhl/studentFellowships.html

The Stephen and Ruth Wainwright Endowed Fellowship supports research in functional morphology.

The Alan J. Kohn Endowed Fellowship supports research and coursework in invertebrate zoology.

The Richard and Megumi Strathmann Fellowship supports graduate students working on natural and physical science problems in the Pacific Northwest.

The Patricia L. Dudley Endowment supports research or scholarships for the study of systematics, the structure of marine organisms, or marine invertebrate ecology. It is desirable that findings contribute to the understanding of evolutionary relationships.

The Charles Lambert Memorial Endowment provides assistance to graduate students for research and/or coursework at FHL that includes cell or developmental biology of marine invertebrates, or any aspect of ascidian biology.
