2019 Interns In Economics

I worked at Teleflorist Technologies as a marketing intern. I conducted market research for a new product and writing fields such as e-commerce. I was able to explore the field of business and robotics, exploring the impact and its possible impact on the market.

Andres Morales

Through a marketing perspective, I analyzed data on consumer behavior and market trends, resulting in an increase in the number of customers and revenue growth. I also worked with the sales team to develop new business opportunities.

DIYK Marco

This semester, I interned at Field's Corner Main Street in Dorchester and learned the ins and outs of economic development. Through research and data analysis, I helped to identify trends and make informed policy decisions. My work helped to improve the economic conditions of the area.

Nicholas Passalugo

I worked for the Environmental Protection Agency (EPA) as a Procurement Specialist. I analyzed data to measure the environmental impact of various projects and helped to develop programs to improve the state of Massachusetts from using green cleaning products, such as foam and soap.

Luke Pynchon

I participated in the City of Boston's Internship Program, working with the Mayor's Office of Economic Development. I worked on projects related to small business development, economic growth, and job creation. My work contributed to the city's economic growth and helped to support local businesses.

Kathryn Riden

During my time at Field's Corner Main Street, I analyzed data for local businesses in the area. I helped to identify trends and make informed business decisions. I also worked with the community to promote local businesses and improve the economic conditions of the area.
