Face-covering Guidelines

When in public, wear a face covering over your nose and mouth. Face coverings are not a substitute for social distancing.

- Use anything that covers your nose and mouth.
- Masks should fit snugly, be secured with ties or ear straps, and not restrict breathing.
- Face coverings should be multiple layers.
- Leave surgical masks and N95’s for healthcare workers.
- Your mask or face covering should be able to be machine washed and dried.
- Only touch the ties or ear straps, not the front, and wash your hands after handling.
