Christine Armett-Kibel Fund for Women in Sciences

Christine Armett-Kibel Fund for Women in Sciences was established in 2004 by Dr. Armett-Kibel and friends upon her retirement from the Biology Department.

The purpose of this fund is to provide scholarship assistance for undergraduate women students in their junior and senior year at the University who are majoring in Biology, Chemistry, Biochemistry, Physics, Mathematics, Earth and Geographic Sciences (Environmental Sciences), Computer Sciences, Engineering and future majors in the College of Science, and when appropriate, other fields and disciplines where the content of the students work is extensively and primarily involved with the natural sciences. Whereas the primary purpose of the fund is scholarship assistance, it can, in certain circumstances, provide support to enhance the student’s educational experience such as conference fees, travel to conferences, etc.

For information contact Dr. Alexia Pollack (alexia.pollack@umb.edu), Chair of Undergraduate Honors and Scholarship Committee in Biology, Dr. Rick Kesseli (rick.kesseli@umb.edu), Chair of Biology, or Dr. William Hagar (william.hagar@umb.edu), Associate Dean in the College of Science and Math.
