Hot Works Operations at UMass Boston

**Facts:**

- A “hot works” permit is needed before beginning any type of hot works operations at UMass Boston. Certain exclusions apply.

- The permit covers activities involving open flames or producing heath and/or sparks. This permit includes, but is not limited to brazing, cutting, grinding, soldering, thawing and welding.

- Environmental, Health and Safety (EHS) at UMass Boston is responsible for issuing hot works permit. Permits can be written for a period up to two (2) weeks.

- Both outside contractors and Facilities personnel are responsible for obtaining hot works permits.

- EHS can be reached at 617-287-5445, Service and Supply, UL, room 34 or umbehs@umb.edu

- More information can be found at: [https://www.umb.edu/ehs/sop](https://www.umb.edu/ehs/sop)
