New Student Health Requirements Checklist

All of the following information is available at our website www.umb.edu/healthservices under “Information for New Students.”

**Immunizations**

*Deadline: August 31 (fall semester)*
*January 1 (spring semester)*

All students attending classes on campus must show proof of immunity to certain communicable diseases, as determined by the Massachusetts Department of Public Health, before attending classes.

Failure to submit documented proof will result in a hold being placed on your records and your registration will be blocked. Detailed instructions are available at www.umb.edu/healthservices/administration/policies/immunizations.

Required Immunization Form is available at www.umb.edu/healthservices/forms.

**Health Insurance**

*Deadline: October 1 (fall semester)*
*March 1 (spring semester)*

Massachusetts State law requires students enrolled in ≥75% of full-time curriculum in any Massachusetts institution of higher education to participate in a school-sponsored qualifying health plan (www.umb.edu/healthservices/insurance and massresources.org/student-health-insurance.html) OR an alternate health plan with comparable coverage (www.umb.edu/healthservices/insurance/health_insurance_waivers).

**Tuberculosis (TB) Screening**

*Deadline: August 31 (fall semester)*
*January 1 (spring semester)*

All students must be assessed for TB risk. Please print the TB Questionnaire and Risk Assessment form that can be found at www.umb.edu/healthservices/forms.

Fill it out, sign it and submit it to our office. Depending on your determined level of risk, you may be asked to complete further screening.
