How To Use the UPK Player

Step 1. **Click** on the link to the UPK Module, Topic or Section that you would like to see. The UPK Player will open in your browser. **Important:** In order to access the UPK player, you may need to disable pop-up blockers.

**NOTE:** Some training is designed for particular job functions or roles. Check off the My Roles checkbox and click the **My Roles** hyperlink to see if your particular training course provides a role based learning option.

Step 2. **Expand** the appropriate Module (カー) in the Outline section located on the left side of the player.
### How to use the UPK Player

**Note:** The Concept section, located on the right side of the player, provides background information about the highlighted Module, Section, or Topic.

| Step 3. | **Expand** the appropriate Section (🔍) in the Outline section located on the left side of the player. |
| Step 4. | **Click** on a Topic ( strs ). The Player mode buttons in the Playback Mode section will become active (buttons turn blue). |

**Playback Modes:** UPK offers five playback modes that appear when you select a topic. We recommend using the first two modes for reviewing purposes. The fifth mode is for end user reference.

- **See It!**
  - This web video allows you to learn by watching. You can pause, resume, and replay the training at any time.

- **Try It!**
  - This interactive simulation allows you to try each step. If you need help on a step, the tool will offer hints.

- **Know It?**
  - This interactive simulation allows you to assess your skills without the step-by-step instructions.

- **Do It!**
  - This pop up window will act as a coach in the application after Go Live. While completing a process, you can open it through the Help link and receive step-by-step instructions. *(note – this mode only context sensitive with PeopleSoft Applications)*

- **Print It!**
  - *New* - This pop up window allows you to open or save a printable job aid for end user reference.

| Step 5. | **Click** on the appropriate playback mode. The player opens up. |

**Note:** If you select the See It! mode, the player will begin automatically. If you select the Try It! and Know It! modes, you will need to click the start link to begin the player. If you select the Do It! mode, you will need to click the play button (▶) to begin the player. If you select the Print It! mode, a dialog box displays for you to open or save a job aid for the selected topic.

<thead>
<tr>
<th><strong>Note:</strong></th>
<th>You can use the Search field (Search) in the upper left hand corner to find Topics by using a keyword. For example, if you type “Job Code” in the Search field and click the Go button (Go), the topic list will reorganize for all topics that use the word “Job Code”. To reset back to the default, click the All radio button (All).</th>
