How to Use the On-line Help in WISER

If you need additional information while you are viewing a page in WISER, click on the Help link in the top right corner of the page.

A new UPK (on-line tutorial) window will open to the appropriate tutorial with its topics listed on the left.

Select the topic you wish to view.

Click on the Do It! button in the panel on the right.

A small window will open displaying the first step in the tutorial.

Go back to the WISER screen. You should be viewing both WISER and the small tutorial panel.

The tutorial will have an instruction in the yellow space at the top, with a screenshot at the bottom.

As you perform each step in the tutorial in WISER, click on the arrow in the tutorial to advance to the next step.
Do It! Actions

Click the **Collapse Menu** button.
