Viewing the iClicker Instructor Report in Blackboard Learn

Instructors can run a report to view which students have registered their iClicker remotes in Blackboard. Follow the steps below to access the report.

1. Log in to Blackboard and access your course. From the Course Management area of the course menu select “i>clicker Instructor Tools” from “Course Tools.”

2. Click the “Instructor Report” link.

3. Select “Show registered and unregistered students” under “Filter by Registration” and click Submit.

4. The report is displayed. Click the “Registered Remote ID” headings to sort by registration status. Click Back to return to the course.
