Bicyclist Safety Bill
The Bicyclist Safety Bill (Bike Bride) is a law that aims to ensure the safety of bicyclists on the road. The bill includes provisions that make it easier for bicyclists to be seen by motorists, in particular, requires motorists to pass bicyclists with a minimum of 3 feet. This is called the “3-foot law." The bill also provides for the creation of bike lanes and restricts motor vehicle usage on bike paths and other dedicated bicycle facilities.

Map Methodology
The first edition of this map was created in 2009 with input from the Greater Boston Bicycle Coalition. It is intended to show the existing bike routes and includes suggestions for improvements. The map is updated annually and is a resource for cyclists and city planners.

Massachusetts Law States That Bicycles Are Vehicles
In Massachusetts, bicyclists and motorists have many of the same rights on the roads. Bicycles are considered vehicles, and therefore they are subject to the same laws as other vehicles. This includes the requirement to follow traffic signals and signs, and to yield to pedestrians.

Bikeroutes of Boston
This map shows the bike routes and routes that are recommended for use by bicyclists in the Boston area. The bike routes are color-coded and numbered. The routes are color-coded and numbered.
