Welcome to the Public Policy Doctoral Program at the University of Massachusetts Boston!

Updated in 2015, this Public Policy Ph.D. Student Handbook includes policies and procedures established by the Ph.D. Program in Public Policy in conjunction with University requirements as published by the Office of Graduate Studies and the Office of the Registrar. A full listing of the University’s [graduate degree requirements](#) can be found on the Graduate Studies website and a full listing of the University’s [academic policies](#) can be found on the Registrar’s website.

**ALL STUDENTS SHOULD BE FAMILIAR WITH POLICIES AND REQUIREMENTS IN BOTH THE UNIVERSITY ACADEMIC REGULATIONS SITE AND THE STUDENT HANDBOOK.**

In the event that University requirements conflict with those specified by the Program, University requirements must be followed. Cases where the University requirements are broad but the Program requirements are specific do not present a conflict, and in these cases the requirements of the Program apply. **Note** that rules and procedures pertaining to the code of student conduct, statement of confidentiality of academic records, resolution of problems, human subjects’ protection, faculty conduct, and student governance have not been reproduced in this handbook.

**Program requirements changes approved by the university in spring 2015 will impact the incoming 2015 students. Degree requirements were reduced in total credit hours for the Ph.D. from 76 to 67.**

This change brings the UMass Boston Public Policy doctorate in line with other McCormack Graduate School doctorates. It also moves the programs ranking with respect to total credit hours among comparable Ph.D. programs from 2nd to 7th in total credits. It will place the UMass Boston at the top of the second cluster of Ph.D. programs in comparative national programs, similar to American University, Brandeis University, Carnegie Mellon, New School, and State University of New York at Albany.

This program change permits students six elective courses (3 credit hours each) to pursue further methodological or specialized academic content that will enhance their ability to write their dissertation. Reducing the number of elective courses from eight to six courses and removing the additional 2 credit requirement will allow students to progress towards writing their dissertation one semester earlier than under the previous program requirements. The department anticipates this will increase student degree completion.

Finally, changing from 10 to 9 credit hours for dissertation credit is consistent with a three-course equivalent sequence for writing their thesis.

**Students who entered the doctoral program in 2014 or before will graduate under the prior requirements.** When applicable we have made those distinctions throughout the handbook.

We will continue to produce revised and updated editions of this handbook and welcome
all comments, criticisms, or suggested improvements.

Best Regards,

Christine Thurlow Brenner, Graduate Program Director (GPD)
Melissa Quashie, Graduate Program Administrator

Revised August 20, 2015
I. PUBLIC POLICY PH.D. PROGRAM GOVERNANCE

The principal policymaking authority for the Public Policy program is the faculty. The program’s director, who is selected by the program faculty with the approval of the Dean of Graduate Studies and Research, is principally responsible for the administration of the program. The Executive Committee is comprised of the graduate program director and chairs of the program’s standing committees. These committees include: 1) Academic Affairs; 2) Admissions; and 3) Comprehensive Examinations.

II. ADVISING

The Graduate Program Director advises students in the first year of the PhD program. At the end of their first year students select an advisor who will work with them until their dissertation committee is formed. Students are required to choose an academic advisor for academic years two and beyond at the end of their first year. Students are responsible for completing this form, once an advisor is chosen, and obtaining the signature of the academic advisor. The form should be filed with the Public Policy PhD Program Administrator once the form is completed and signed.

Students are strongly encouraged to choose academic advisors whose research interests overlap with their own. Students are also encouraged to look first to public policy departmental faculty for academic advisors; however, any faculty in the Public Policy PhD program may serve as an academic advisor.

The Academic Advisor form is included in the appendix of the handbook.

III. COURSE REQUIREMENTS FOR PH.D. IN PUBLIC POLICY

A. Statistics Placement Requirement

Depending on a student’s academic background in mathematics and score on the Quantitative Graduate Records Exam (GRE), some students may be asked to take the Advising Center’s math placement exam: “Test B2, part 1”. The exam takes about an hour and the results are available within two hours. Students who plan to take Test B2, part 1 should do so in the early summer before enrollment, so that appropriate preparation work can be completed prior to enrolling in PPOL-G 604 (Statistics I), if necessary.

These students will need to provide a copy of the testing results form to the statistics faculty member in order to start the Public Policy statistics sequence. Those students who do not pass Test B2, part 1 will need to take Exam “A” and take the indicated preparatory courses, including passing Math Q114 with a “B” or better grade in order to enroll in PPOL-G 604. The Math Q114 course can be taken in the fall of the student’s first year if necessary, and will delay enrolling in the statistics sequence. Math Q114 credits cannot be used toward the doctoral degree.
Students who do not live in the Boston area and cannot come to campus to take the placement exam should contact the program office for other arrangements.

B. Statute of Limitations

The University requires that each Ph.D. candidate earn the degree within eight calendar years of entering the program. A student may obtain a leave of absence up to a maximum of two years which delays maximum program completion time by the corresponding length of leave time. Also, in exceptional cases, an extension of the statute of limitations (typically no more than two years) may be granted when a student can demonstrate that s/he is making substantial progress on the dissertation. Students should request such an extension to the Graduate Program Director of the Public Policy Program by providing a progress report and timeline for completion, agreed upon between the student and his/her committee chair. If approved, the Graduate Program Director will then make a recommendation for extension to the Graduate Registrar.

C. Credit and Course Requirements

The University specifies that a graduate student may take up to 15 credits during the fall and spring semesters and up to nine credits in the summer.

STUDENTS ADMITTED FALL 2015 OR AFTER:
In the Public Policy Ph.D. Program a student must successfully complete a minimum of 67 credits (58 course credits plus a minimum of 9 dissertation credits). Forty credits (13 3-credit courses and 1 1-credit course) are required and 18 credits (six courses) must be earned in courses chosen by students as electives, internship and/or independent study. Three of these credits may be completed via an optional internship (typically in the student’s third year). The University requires all Ph.D. candidates to complete a minimum of 9 dissertation credits. These dissertation credits may be taken at any point during a student’s time in the PhD program. Students on assistantship support (during years 1-3) are encouraged to register for all dissertation credits (PPOL-G 899) during this time so tuition and most associated fees will be waived.

A full-time student’s typical course schedule is represented below. Core courses are starred (*). A description of all required courses and the current list of elective courses offered by the Public Policy Ph.D. Program can be found in section VII of this handbook.

STUDENTS ADMITTED FALL 2014 OR BEFORE:
In the Public Policy Ph.D. Program a student must successfully complete a minimum of 76 credits (66 course credits plus a minimum of 10 dissertation credits). Forty credits (14 courses) are required and 26 credits (eight-nine courses) must be earned in courses chosen by students as electives, internship and/or independent study. Three to nine of these credits may be completed via an optional internship (typically in the student’s third year). The University requires all Ph.D. candidates to complete a minimum of 10 dissertation credits. These dissertation credits may be taken at any point during a student’s time in the PhD program. Students on assistantship support (during years 1-3) are encouraged to register for all dissertation credits (PPOL-G 899) during this time so tuition and most associated fees will be waived.
A full-time student’s typical course schedule is represented below. Core courses are starred (*). A description of all required courses and the current list of elective courses offered by the Public Policy Ph.D. Program can be found in VII of this handbook.

**Full-time students are expected to be continuously enrolled and should complete all their course work by their third year of study.**
D. Part-time Program

Each year, a small group of students may be admitted as part-time students. The credit requirements will be the same, but course requirements will be spread over a four year period. Courses will still be offered during the day as the program does not offer evening, weekend, off-semester or on-line courses. A part-time student’s typical course schedule is represented below.

**YEAR 6, 7…**
- Elective VIII

Note: Part-time students are expected to complete two courses in each semester until all course work is complete. Part-time students should expect to be on campus the equivalent of one full day each week, at minimum. This may require part-time students to discuss with their supervisors the ways that their employment responsibilities can accommodate a campus presence consistent with full participation in the Public Policy PhD program.

Part-time students may register for dissertation credits whenever they prefer, though most often students register for dissertation credits after completion of their coursework. Note also that some graduate courses in other degree programs are offered in the evening. Students may receive PhD elective credit for these courses with prior approval of the GPD.
E. Program Fee

Once all coursework and dissertation credits are complete, students are required to register for CAS 600 Program Fee each semester in order to maintain an active status in the program. Failure to do so will result in administrative withdrawal from the university, so that students must be readmitted to the program and pay all owed program and processing fees to complete the degree. Currently the program fee is set to $225.00 per semester. Students are responsible for contacting the Graduate Programs Administrator at the start of the registration enrollment period for permission to enroll in Program Fee.

F. Transfer Credit Policy

1. Transferring Graduate Course Credits

University policy states that students who have completed graduate course work at other accredited institutions may transfer up to 6 credits from the following:

1) Courses in which the student received a grade of B or higher;
2) Courses which have not been used to fulfill requirements for another degree; and
3) Courses which were earned no more than seven years prior to their matriculation at UMass Boston.

During their first semester of study, students may put in a request to the Academic Affairs Committee to transfer up to 6 credits towards their degree. Requests should include copies of the student’s transcript and course syllabi. Transfer credit decisions are to be made on a case by case, course by course (either core or elective) basis.

Additionally, students may transfer up to 6 credits from graduate coursework completed at UMass Boston. Criteria for course transfers include:

1) Courses where the student received a grade of B or higher;
2) Courses which have not been used to fulfill requirements for another degree; and
3) Courses that were earned no more than seven years prior to their matriculation into the PhD program.

2. Advanced Standing for Master’s Degrees

Students entering the Ph.D. program with a Master’s degree in a field related to Public Policy that was **earned no more than seven years prior to matriculation**, are eligible for “Advanced Standing.” A relevant advanced degree would include degrees received in: social sciences, public policy, public administration, social work, labor relations, public health, education, and criminal justice. Depending on the focus of the program attended, we would consider a JD or some MBAs, and we would not rule out other fields in which the degree program had significant policy content (e.g., international relations).

Students granted Advanced Standing will have **up to 9** elective credit hours waived (3 courses). Courses are waived course-by-course based on equivalency and relevance. Public Policy Ph.D. students can apply for advanced standing after their first semester in the program. Students should complete the Office of Graduate Studies and Graduate Admissions Advanced Standing
Form for Course Waivers and Transfer Credits (future references to the form in this handbook are abbreviated to Advanced Standing form; see Appendix for a copy) and submit it to the Chair of the Department Academic Affairs Committee along with an official transcript for their coursework by the deadline. Up to 9 credits of advanced standing may be awarded at the Committee’s discretion.

Courses must have been taken at an accredited institution, be completed no more than seven years prior to matriculation at UMB, and received a grade of B or higher, confirmed with an official transcript to be provided by the student. If the Master’s degree has been earned more than seven years prior to admission, or the student wishes to seek credit for a degree not typically approved by the Academic Affairs Committee, he/she may still submit a request to the Academic Affairs Committee for a credit reduction, which is at the Committee’s discretion.

Students who have completed advanced coursework in more than one field may request up to 6 additional credit hours of transfer credits for relevant coursework. Note: the same courses cannot be submitted for both Advanced Standing and Transfer Credit.

The Advanced Standing Form is located in the appendix of the handbook.

G. Course Waiver Policy (Waiving Out)

A student may seek a waiver from a course in the Public Policy Program if s/he has completed a course with substantially equivalent content at another institution. If a course waiver is granted, the student will receive 0 credits towards their degree requirements (an additional elective course must be completed for each waived course). A maximum of three courses may be waived.

Course waivers will be decided on a case-by-case basis, through negotiation between the student seeking the waiver and the faculty member teaching the course. All waived courses require written approval using the COURSE WAIVER REQUEST FORM found in the Appendix. Completed forms should be given to the Graduate Programs Administrator.

Appeal of a denied waiver may be made to the GPD. Appeal of a denial by the GPD may be made to the Academic Affairs Committee.

H. Prior and Independent Learning Credit Policy (Testing Out)

Students who believe that they have previously or independently achieved the knowledge and skills of a course in the program may request to be evaluated individually prior to or at the start of the course. Such students will be required to:

- Register for the course
- Negotiate the evaluation criteria and standards with the faculty member teaching the course
- Be evaluated according to the agreed-upon criteria and standards
- Complete the Prior and Independent Learning Agreement (see appendix)

The agreed-upon evaluation process must be in writing, signed by the student and faculty
member, and provided to the Graduate Programs Administrator.

If and when the student meets the evaluation criteria and standards, s/he will receive credit and a grade for the course but will not be required to attend the class. If the faculty member determines that the student has not fully met the criteria and standards, it will be at the faculty member’s discretion whether the student will be required to take the course or do additional work independently.

Appeal of a denied waiver may be made to the Graduate Program Director. Appeal of a denial by the Graduate Program Director may be made to the Academic Affairs Committee.

I. Electives

The Ph.D. program offers a limited number of elective courses each semester. However, electives are offered on a rotating basis depending on student interests and faculty availability. Therefore, because of the small size of the program and the wide variety of student interests, students can choose to complete elective work through both program courses and other means as described below.

**All elective requirements fulfilled other than through Public Policy-sponsored elective courses require written approval of the Graduate Program Director,** using the ELECTIVE STUDY AGREEMENT FORM (A sample form is included in the Appendix). These options include:

- **On-campus courses offered by other PhD programs.** The course will appear on the student’s transcript with the course title and grade.

- **On-campus courses offered by Master’s programs which are at the 600 level or above.** The student will be expected to complete additional readings and/or assignments above those ordinarily expected of master’s level students. The course will appear on the student’s transcript with the course title and grade.

- **An independent study in conjunction with 300-level or above undergraduate or master’s courses taught at UMass Boston.** In this event, the faculty member teaching the course, or a faculty member in the Public Policy Program, must agree to conduct and grade the independent study. Credit and a grade will appear as “Independent Study” on the transcript. In these cases, the Ph.D. student will be expected to complete additional readings and/or assignments above those ordinarily expected of undergraduate or master’s level students.

- **An independent study course under the direction of a PhD program faculty.** This course should consist of an amount of study and work equivalent to a doctoral-level course, and a specific written product must be the result of the semester’s work (e.g., a project report, a literature review). The student and faculty member must agree to the scope of the work and the amount of supervision required (e.g., weekly or biweekly meetings) and draw up a written agreement to be filed in the student’s academic record in the program office. Students are ordinarily not encouraged to
elect to complete more than two independent study courses. Exceptions to this policy must be approved by the graduate program director.

- **Off-campus graduate courses taken for credit.** If a student wishes to enroll in a policy-related course at another graduate school and plans to transfer credits toward their doctoral degree, the course should be approved by the GPD before the student registers for the course. *A maximum of 6 credits from other institutions may be transferred towards the doctoral degree.*

- **Off-campus graduate-level courses that are audited.** Students can receive credit for off-campus 600-level or above courses that are audited, with the permission of the instructor. Students who wish to do so should contact the GPD to obtain permission from the other institution’s faculty member. Outside faculty members may choose to grade papers and exams and assign grades, however, some will only agree to class participation. In either event, students will register for an Independent Study at UMass Boston and will need to obtain a sponsoring faculty member at UMB who will agree to review the work and award the grade given by the off-campus faculty member, or to actually evaluate the student’s work and assign a grade.

J. Internship

Students can also fulfill elective coursework through internship credits. Internship credit will account for three credit hours. Students can pursue up to six credit hours for internship work, 3 credits per internship experience. The internship should demonstrate applied work on a public policy research related issue, fulfilled by one of two different mechanisms:

1. **Completing a Paid or Unpaid Internship**
   Students may select or identify a paid or unpaid public policy project to carry out which meets specified standards and includes a minimum of (450) actual hours for three credit hours over one or two semesters.

2. **Evaluation of Current Policy Work in a Current Work Setting**
   Students may complete a specific public policy project in a setting where they are currently employed.

Students who wish to complete any internship (1 or 2) must submit a written proposal to the graduate program director in the semester prior to registering for internship credits. The proposal must:

(1) identify a department faculty member who has agreed to evaluate the paper to be written if the project is approved, (2) identify the organizational setting for the policy work, (3) describe the student’s role and responsibilities (including amount of time spent on the project), (4) discuss the type and nature of the policy issue(s), and (5) identify the work supervisor and/or others who can attest to the nature and extent of the student’s work.

The Internship Proposal form must be completed and approved prior to the semester the student signs up for internship credits (See INTERNSHIP PROPOSAL form in the Appendix.)
Regardless of which option is chosen (unpaid internship or work setting) the student must:
(1) submit a research paper based on their internship experience which meets the criteria of a
substantive and critical research paper, and (2) present the project to a seminar of department
faculty and students. Upon faculty approval of the internship paper and student completion of a
presentation, credits will be awarded. Until the paper and presentation are completed to faculty
satisfaction, these credits will be graded Y (in progress); upon satisfactory completion, the grade
will be converted to SAT (satisfactory).

K. Concentrations

1. Concentration in Conflict Resolution

*Students interested in this concentration should meet with Professor David Matz for advising.*

The “art” of public policy is mediated among interested and key players. Increasingly, state and
local governments and non-profit community organizations have recognized the role and
importance of conflict resolution in their administrative and public policies. This concentration
fits with the mission of the Public Policy Program.

The faculty of the Department of Conflict Resolution, Human Security and Global Governance,
which administers master’s programs in Conflict Resolution, provide coursework for this
concentration. CRHSGG faculty who are affiliated with our doctoral program include David
Matz and Eben Weitzman.

Students need to complete a minimum of nine credits (three courses) from the Conflict
Resolution curriculum.

**Required and prerequisite for all others:** DISRES 621 Negotiation

Two additional courses from the Conflict Resolution curriculum will be selected by the student
in consultation with the student’s academic advisor.

As detailed above, students must receive approval from the GPD and course instructors to do
extra work beyond that required for Conflict Resolution master’s courses in order to receive
elective credit in the Public Policy PhD program.

2. Concentration in Organizations and Social Change

*Students interested in this concentration should meet with Professor Heather MacIndoe for
advising.*

Organizations are at the heart of societal governance; they develop, contest, implement, and
evaluate public policy. Organizations are also frequent targets of public policy, as sites that
generate, reproduce, or sustain social and economic inequality. Some organizations, such as
government agencies, are where public policies are enacted. Other organizations, such as
community-based nonprofit organizations or advocacy groups, can act as agents of resistance and social change in the policy process. An understanding of organizations, their sources of power, role in governance, and structures and processes, is fundamental for public policy analysts and public managers. An organizational perspective enables students of public policy to apply a range of theories from different disciplinary perspectives, including sociology, political science, and economics, to the analysis of a wide range of policy issues in which organizations play a central role.

Students need to complete nine credits (three courses) from the following:

**Required course:** PPOL-G 752 Public Policy, Organizations and Social Change

**Electives:** Students will choose two courses from this recommended list:

- PPOL-G 751  Public Policy Challenges: Urban Nonprofit Organizations
- DISRES 625  Conflict, Organizations & Systems
- SOCIOL 601  Complex Organizations

As detailed above, students must receive approval from the GPD and course instructors to do extra work beyond that required for Conflict Resolution and Applied Sociology master’s courses in order to receive elective credit in the Public Policy PhD program.

L. Guidelines for the Documentation of Academic Work

**University Policies and Regulations**

It is every student’s responsibility to familiarize themselves with University codes, policies and regulations. Please refer to the University Policies & Regulations site for complete information on sexual offenses, academic dishonesty and student misconduct policies, as well as the Code of Conduct. For information on academic policies, visit the Registrar’s website.

Most of the below listed regulations have been taken from the University’s Graduate Bulletin. For a comprehensive listing of all University regulations, visit the “University Policies & Student Rights” section of the “Life on Campus” website.

**Academic Honesty**

Students should be aware that, at the discretion of the instructor, assignments may be submitted to plagiarism detection software programs for the purpose of detecting possible plagiarism. Students must be prepared to submit an electronic version of any written assignment upon request of the instructor. It is the responsibility of the student to become familiar with the Code of Student Conduct (CSC) of the University of Massachusetts Boston. This is the guiding

---

1 http://www.umb.edu/life_on_campus/policies/regulations/
2 http://www.umb.edu/life_on_campus/policies/code/
3 http://www.umb.edu/registrar/academic_policies/
4 http://www.umb.edu/life_on_campus/policies
5 http://www.umb.edu/life_on_campus
6 https://www.umb.edu/life_on_campus/policies/community/code
document for all classes and assignments. Please feel free to ask your professors any questions regarding academic honesty.

Students should be familiar with all procedures related to academic honesty at the University of Massachusetts Boston. Here, we list only the University’s definitions of violations of the Academic Honesty portion of the Code of Student Conduct, which include, but are not limited to, the following:

1. Submitting as one’s own an author’s published or unpublished work (e.g. material from a journal, Internet site, newspaper, encyclopedia), in whole, in part, or in paraphrase, without fully and properly crediting the author.
2. Submitting as one’s own work or materials obtained from another student, individual, or agency without full and proper attribution.
3. Submitting as one’s own work material that has been produced through unacknowledged or unauthorized collaboration with others.
4. Submitting substantially the same work to more than one course without prior approval from all instructors involved: i.e., dual or multiple submission.
5. Using any unauthorized material during an examination, such as notes, tests, calculators, cell phones, PDAs, or other electronic or mechanical communication devices. Abuse of cellular devices with photographic capabilities and use of devices for purposes of photographing test questions or other notes and materials are also prohibited.
6. Obtaining answers to examination questions from another person with or without that person’s knowledge; furnishing answers to examination questions to another student; using or distributing unauthorized copies of or notes from an examination.
7. Submitting as one’s own an examination taken by another person; or taking an examination in another person’s place.
8. Gaining or seeking to gain unauthorized access to, or altering or destroying the paper or electronic files of a student, faculty member, or staff member for the purpose of gaining better academic standing and success.
9. Failing to adhere to professional standards or ethics of a discipline and/ or violating the rules of an agency in the course of completing field work, internship, practicum, student teaching, or clinical placement.
10. Interfering with an instructor’s ability to evaluate accurately a student’s competence or performance; misleading any person in connection with one’s academic work.

In addition to the CSC, further discussion of academic integrity is also contained in the University of Massachusetts Boston document “University Policies and Regulations.”

You are required to read these documents and ensure that your work conforms to the standards of academic integrity described therein throughout your time in the program.

M. Conditions for Using Work in More than One Course
Students may use the same topic or issue of interest to demonstrate work in more than one course (usually not more than two). However, when this is proposed, the student must:

1. Obtain prior agreement of the faculty member for each course;
2. Inform both faculty members in writing at the time of turning in the assignment in what ways the papers differ from each other;
3. Provide a copy of each completed paper to the Program Office; and
4. Make sure that substantial additions and revisions of the topic occur in each version of the work and are sufficient to meet the different requirements of each course.

If a topic is being revised and added to in a subsequent semester to the one in which it was first presented, the student must inform the faculty member from the prior course; obtain agreement from the current faculty member to complete the work in this manner; state in writing at the time of turning in the assignment to the new faculty member the ways in which the paper is different; and follow steps 3 and 4 above.

Turning in essentially the same work for credit in more than one course or Independent Study constitutes a violation of the campus’ CSC academic honesty policy.

IV. OTHER DEGREE REQUIREMENTS

A. Comprehensive Exam

Students must successfully complete one comprehensive exam at the end of their second year of coursework. The exam will require students to demonstrate, in stages, theoretical mastery, methodological mastery and translation of learnings into policy and practice. In order to take the exams, students must be in good standing in the program and must have fulfilled all required core coursework (except Dissertation Seminar) with grades issued at least two weeks prior to the exam dates. After successful completion of the exams, students become eligible for an en route Master’s Degree and can continue to complete necessary work for their doctorate.

While University policy allows one year for completion of Incomplete grades, any student who has Incomplete coursework at the time of the exams may be required to postpone their comprehensive examinations until the following year. Students can petition to the Academic Affairs Committee to take the exam even if they have not successfully finished all the requirements and should provide compelling reasons and evidence.

1. Description and Rationale of the Comprehensive Exam

The Comprehensive Exam is designed to enable doctoral students to demonstrate:

- mastery of the foundational theoretical and methodological material to which they have been exposed through their coursework, and an ability to apply what they have learned to a policy issue
- an ability to think on their feet, engage in logical and critical thinking, build a convincing argument, recognize and take into account the biases and assumptions they bring to a policy topic or research plan, and write well
• a readiness to start the journey of carrying out scholarly, independent research that holds up to peer scrutiny

2. Timing and Structure of the Exam

The exam will take place during one week in June for five full days in a row: Monday through Friday. It will be organized around one policy issue and have three parts:

• Monday and Tuesday: Theoretical mastery
  o Application of at least two theories to the policy issue at hand which students have been exposed to in their coursework. Students will be required to draw upon their coursework and a reading list they are provided ahead of time. The theoretical exam will present students with a current policy debate and ask them to analyze a few well specified issues related to this debate from at least two theoretical perspectives – political science, sociology and/or economics. Each theoretical discussion will be separate, i.e. the committee is not going to ask students to integrate theoretical approaches. Each theoretical discussion should draw only on the readings assigned to the students for the purpose of the exam.

• Wednesday and Thursday: Methodological mastery
  o Development of an integrated research design, using both quantitative and qualitative methods if appropriate, on the policy issue at hand. Students will be provided with one example of published research on the policy issue and be asked to identify the methodological issues that the student's research would improve upon. This segment of the examination requires students to generate relevant research questions and testable hypotheses and to determine, for each research question, the data needed, appropriate data collection strategies, sampling plans, and analytical tools.

• Friday: Translation for Policy and Practice
  o Development of specific policy and practice implications related to the policy issue at hand, taking into account the theoretical and methodological learnings which have emerged from what they have completed on the previous four days.

3. Preparation for the Exam

The chair of the Comprehensive Exam Committee holds a meeting prior to the exam for all students taking the comp. At this meeting, the chair provides information about the exam, materials available to students, and answers questions about the process and general framework of the exam.

Students may choose to review class notes and assignments and reread key readings in preparation for the exams.

4. Code of Conduct
Students are required to sign a Pledge of Academic Honesty which indicates that they are familiar with the rules of academic integrity and that they will work on the exam without assistance from other students, faculty, or anyone else. The work that students submit must be entirely their own, and must abide by the rules of appropriate academic attribution that regulate intellectual activity, such as correct citations and bibliographic information. Violations of academic integrity, as detailed in section III, L of this handbook, may result in penalties ranging from failure on the exam to expulsion from the University.

Once students pick up the exam, they must complete it and turn it in on time. Failure to return the exam will result in a failing designation. If there are extremely compelling reasons for non-completion of the exam, a student must notify the GPD and the Chair of the Comprehensive Committee immediately with a specific request for extension or stoppage without penalty (so that the exam can be taken again a year later) and documentation to support their request, if necessary.

5. Evaluation and Grading of the Comprehensive Exam

The Comprehensive Exam Committee works to develop the specific exam, to collect necessary bibliographic material or data sets, and to evaluate students’ work. While the committee chair knows which students plan to take the exam, the rest of the committee members may not. Students are assigned a letter of the alphabet when they pick up their exam. They are instructed to identify their exams only with this letter. This process assures that each student's identity is not known to comprehensive exam readers.

The Comprehensive Exam Committee will evaluate the content of each section individually and then consider the exam as a whole. The completed exams must also demonstrate a level of writing proficiency that would be expected from anyone receiving a Ph.D. in the social sciences.

The Comprehensive Exam Committee meets and thoroughly discusses each exam. Exams are designated by the level in which they demonstrate proficiency with the material: High Pass, Pass, Conditional Pass or Fail. Once all evaluation of their work is done, the identity of each student is revealed to all committee members, including the chair.

All students are given written feedback on their work. Students' exams that receive a High Pass demonstrate high levels of proficiency throughout the exam. Exams designated a “Pass” indicate the student has demonstrated his or her proficiency in all or almost all of the exam areas. Students with an exam designated with a High Pass or Pass are completed with the exam. Students, who receive a Conditional Pass, will need to revise and resubmit part of their exam by a specified deadline in the following fall semester. The goal of these revisions is to deepen the analysis and demonstrate the ability to critically examine one’s own work.

Students who fail the exam have one opportunity to re-take one, two or all three parts of the exam – depending on which section of their exam was assigned a failing grade. For students who fail the Comprehensive Exam, the Comprehensive Committee will inform the student of which portion(s) of the exam must be repeated in subsequent years.
Students whose exam is designated as Fail have not demonstrated competency on most or all areas of the exam. These students receive detailed written feedback and are encouraged to talk to all committee members. The Comprehensive Exam Committee Chair works with students who fail to chart specific plans to gain core competencies before taking the exam again. Students who fail the exam have one opportunity to re-take one, two or all three parts of the exam. For students who fail the Comprehensive Exam, the Comprehensive Committee will inform the student of which portion(s) of the exam must be repeated. Students who fail the comprehensive exam twice cannot continue in the doctoral program. They may, however, write a master’s thesis and receive a terminal master’s degree.

6. Grievances

All grievances regarding any aspect of the exam, inappropriate conduct, or any other problem that may arise, will be handled by the Comps Committee, and, if necessary, in consultation with other academic governance bodies of the Department and the School.

B. Master’s Degrees

1. En Route Master’s Degree

The Public Policy PhD Program does not admit students who intend to complete the master’s degree only. After successful completion of all required core courses (with the exception of the Dissertation Seminar) and successful completion of the comprehensive exam, the student may submit the PUBLIC POLICY DEGREE MS APPLICATION (see Appendix) to request a Master’s Degree in Public Policy. The application should go directly to the Registrar’s Office and a copy provided to the Graduate Programs Administrator, Melissa Quashie.

Upon completion of the course-based credit hours required by the Program, and successful passing of the comprehensive examination, students must submit DISSERTATION TRACKING FORM 1 (NOTIFICATION OF CANDIDACY). Upon approval of the form, the student has achieved doctoral candidacy and can consider themselves to have entered All But Dissertation (ABD) status.

Students must submit the completed Graduate Degree Application (see Appendix) to the Registrar by the application deadline (October 31 for December 2015 conferral; March 13th for June 2016 or August 2016 conferral) in order to officially earn the en route Master’s degree. Please note that the Registrar does not grant extensions of the degree application deadline.

2. Terminal Master’s Degree

The terminal degree may be awarded to a student in the unusual situation wherein the student has successfully completed his or her required coursework but has twice failed to pass the comprehensive examination.
Students who wish to pursue the master’s thesis option will submit a petition to the Academic Affairs Committee of the Public Policy Program by December 1. The Academic Affairs Committee will review the student’s complete academic record, including his/her course work and any graduate assistantship evaluations. If the student has unsuccessfully attempted the qualifying exam, the Academic Affairs Committee will additionally request a recommendation from the Comprehensive Exam Committee, which will review the failed exam and decide (by majority vote) whether the student’s performance on the exam demonstrates sufficient promise of success in completing a master’s thesis. The Academic Affairs Committee’s decision on whether the student should be allowed to complete a master’s thesis will be final.

The student may choose his/her faculty advisor and should notify the Graduate Program Director in writing. In consultation with that faculty member, the GPD will assign a second reader. Both the reader and the faculty advisor must approve the thesis in order to be awarded the degree. Upon approval of the Academic Affairs Committee, the student has until March 1 to choose a thesis advisor and submit an approved proposal. The student then has one year to complete the terminal master’s thesis.

The thesis should be a major research paper that includes a review of literature and appropriate use of qualitative or quantitative data. Students may expand on a topic pursued in the course of their graduate studies; however, the work must be original, solely theirs and contain substantial new research. The length of the paper should be no less than 30 pages. Students should also refer to the Guidelines for the Preparation of Theses and Dissertations at the University of Massachusetts Boston, produced by and available at the Office of Graduate Studies7.

C. Dissertation

A doctoral dissertation is a body of work in which the candidate shows a sophisticated understanding of a public policy concern. It must place the topic within some current understanding of the issue as well as generate original ways of interpretation and/or implementation. The dissertation should demonstrate the candidate’s ability to effectively incorporate theoretical and methodological tools in addressing some substantive public policy issue or approach.

1. Establishing a Dissertation Committee

As soon as possible after the student has achieved candidacy, the student should establish a dissertation committee. The committee shall consist of at least three members, meeting the following guidelines:

- The chair of the committee must be a faculty member in the Department of Public Policy and Public Affairs, except as noted below.
- At least two members of the committee shall be faculty members in the Public Policy PhD Program.
- The committee shall also include a member who is external to the Public Policy PhD program. The external member may come either from within the University or outside

7 http://www.umb.edu/academics/graduate/
the University. When there is uncertainty about whether a nominee is sufficiently independent of the candidate’s program to serve as the external member, the Dean of Graduate Studies shall determine the nominee’s eligibility.

In the event that the student feels that it is appropriate for a UMB faculty member outside of the departmental faculty to chair his/her dissertation, the student must request written approval from the Graduate Program Director. Disapproval of the outside chair may be appealed to the Academic Affairs Committee.

Having obtained verbal agreement from members of the Dissertation Committee, the candidate must complete DISSERTATION TRACKING FORM 2 (Notification of Proposed Dissertation Committee) listing the members of the committee. The student should submit the form to the GPD, who will formally sign off on the proposed committee and send it to the Office of Graduate Studies for final approval from the Dean. For any committee members external to the university, this form must be accompanied with those members’ CV’s.

Note that students may consult with faculty whom they expect to serve on their dissertation committee in advance of achieving candidacy.

2. The Dissertation Proposal

Upon approval of the composition of the Dissertation Committee, the candidate should prepare and submit a research proposal to the Chair of the Dissertation Committee. It is assumed that the student will have several informal discussions with the chair of their committee to develop a proposal.

While the length of the proposal can vary, it will typically take no fewer than 20 to 25 pages (most strong proposals are considerably longer). The proposal should include:

- a 300-400 word abstract
- an introduction and overview of the study
- a brief literature review that demonstrates a solid command of the current research on the topic
- a conceptual framework and set of research questions or hypotheses
- a detailed statement of the qualitative or quantitative procedures to be used
- a description of the study population or group
- sources and methods of data collection or means of collecting evidence, and
- a discussion of the policy significance of the proposed topic of study.
Steps in Proposal Hearing Preparation

Once the Chair, in consultation with the Dissertation Committee, has determined the proposal is satisfactory, the student will schedule a date for the proposal hearing with all committee members. The proposal hearing is a public event, where all members of the Dissertation Committee are required to be in attendance. The student should take the following steps in scheduling the defense:

1. The student is responsible for choosing a date with all committee members.
2. The student should contact the Graduate Programs Administrator for reservation of a room for the defense.
3. Two weeks prior to the defense, the student should submit a completed proposal announcement to the Graduate Programs Administrator, who will then advertise the hearing to the University Community.
4. The student is responsible for all set up, material preparation, and other details for the hearing.
5. The student must bring DISSERTATION TRACKING FORM 3 (Notification of Proposal Acceptance) (see Appendix) with them to the hearing for committee members to use in evaluating the proposal.

Format of Defense

The proposal defense hearing is typically scheduled for one and one-half to two hours and can be held any time during the calendar year. The Chair of the proposed dissertation will chair the meeting. A typical presentation format includes:

- Dissertation Committee Chair calls meeting to order and introductions of committee and audience are made
- The student will present his/her proposal research (30-45 minutes), using appropriate audio visual-aids -- handouts, overheads, power point, etc.
- the Dissertation Committee comments and asks questions of the student (30-45 minutes)
- Comments and questions can be contributed by audience members (30-60 minutes) in addition to further comments by the Committee
- Chair calls the end of the defense
- Committee members convene separately to discuss the outcome of the hearing.

Results of the Hearing

All Committee members must make one of four recommendations to the Chair or the Committee: 1) approved; 2) approved subject to minor revisions; 3) action deferred pending major revisions; or 4) rejected. Recommendations must be recorded on the DISSERTATION TRACKING FORM 3. The chart below specifies actions to follow for each recommendation:
<table>
<thead>
<tr>
<th>Hearing Recommendation</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>No majority rule for one specific recommendation</td>
<td>The Chair will convene the Dissertation Committee to discuss the proposal until a consensus is reached.</td>
</tr>
<tr>
<td>Approval</td>
<td>The candidate may proceed with the Dissertation, an electronic copy of the final dissertation must be submitted to the Graduate Programs Administrator, along with a completed DISSERTATION TRACKING FORM 3</td>
</tr>
<tr>
<td>Approval with minor revisions</td>
<td>Within three months, the candidate must make suggested revisions and resubmit the proposal to the Chair only, unless specifically requested to resubmit to other Committee members. Upon approval, the Chair must forward a letter to the GPD stating that the proposal has been approved. An electronic copy of the final proposal must be submitted to the Graduate Programs Administrator, along with a completed DISSERTATION TRACKING FORM 3</td>
</tr>
<tr>
<td>Approval with major revisions</td>
<td>Within three months, the candidate must resubmit the proposal to all committee members. Upon approval, the Chair must forward a letter to the GPD stating that the proposal has been approved. An electronic copy of the final proposal must be submitted to the Graduate Programs Administrator, along with a completed DISSERTATION TRACKING FORM 3</td>
</tr>
<tr>
<td>Rejection</td>
<td>The committee will meet with the candidate and decide how to proceed.</td>
</tr>
</tbody>
</table>

Institutional Review Board (IRB)
All research involving contact with individuals must be approved by the campus Institutional Review Board (IRB) and data collection cannot start until appropriate Human Subjects approvals have been obtained. Forms and information about Humans Subjects Review can be obtained from Office for Research and Sponsored Programs. Students are advised to consult with the IRB early in the dissertation process.

3. The Dissertation

The dissertation defense serves as a final oral examination for the candidate, as well as provides an opportunity for the doctoral candidate to share his/her research results with the wider public policy community (including the dissertation committee). This public presentation should be of the quality we associate with job talks. Participation by the audience is welcome and encouraged, subject to ground rules set by the chair of the dissertation committee.

It is expected that the candidate work closely with his or her Chair throughout the dissertation.

---

8 [http://www.umb.edu/research/policies_procedures/research_compliance/institutional_review_board_irb/](http://www.umb.edu/research/policies_procedures/research_compliance/institutional_review_board_irb/)
process. A dissertation defense will only be scheduled after the Committee members agree that the dissertation is sufficiently complete to undergo defense. The University requires that no dissertation defense be scheduled less than seven months after submission of the approved dissertation proposal to the Office of Graduate Studies. This means that the dissertation proposal hearing must take place no later than early September of the academic year a student plans to complete his/her degree for a May/June graduation. Copies of the dissertation must be provided to all members of the Committee no less than one month before the defense hearing.

Steps in Dissertation Defense Preparation

The Dissertation Defense is a public event, where all members of the Dissertation Committee are required to attend. The student should take the following steps in scheduling the defense:

1. The student is responsible for choosing a date with all committee members.
2. The student may contact the Graduate Programs Administrator for reservation of a room for the defense.
3. Two weeks prior to the defense, the student should submit a completed dissertation defense announcement and DISSERTATION TRACKING FORM 4 (Notification of Intent to Defend Dissertation: see Appendix) to the Graduate Programs Administrator, who will then advertise the defense to the University Community.
4. The student is responsible for all setup, material preparation, and other details for the defense.
5. The student must bring DISSERTATION TRACKING FORM 5 (Results of Dissertation Defense: see Appendix) with them to the hearing for committee members to use in evaluating the proposal, and submit the completed form to the Graduate Programs Administrator.
6. It is advised that the student also bring the signatory page of the dissertation to the defense for committee member signatures. It is the student’s responsibility to keep this page and include it as part of the final dissertation submitted to Graduate Studies for editing and binding.

Results of the Hearing

All Committee members must make one of four recommendations to the Chair or the Committee: 1) approved; 2) approved subject to minor revisions; 3) action deferred pending major revisions; or 4) rejected. The University requires a unanimous vote of the Committee for the candidate to pass the final oral examination. Recommendations must be recorded on DISSERTATION TRACKING FORM 5 (see Appendix), which the student is responsible for providing at the start of the proposal hearing. The chart below specifies actions to follow for each recommendation:
Hearing Recommendation | Student Action
--- | ---
Approval | The candidate has successfully completed the dissertation and may proceed with final submission to the Office of Graduate Studies. Another electronic copy of the final dissertation must be submitted to the Graduate Programs Administrator, along with a completed DISSERTATION TRACKING FORM 5.

Approval with minor revisions | Within three months, the candidate must make suggested revisions and resubmit the dissertation to the Chair only, unless specifically requested to resubmit to other Committee members. Upon approval, the Chair must forward a letter to the GPD stating that the dissertation has been approved. An electronic copy of the final dissertation must be submitted to the Graduate Programs Administrator, along with a completed DISSERTATION TRACKING FORM 5. The student may proceed with final submission to the Office of Graduate Studies.

Approval with major revisions | Within one year, the candidate must resubmit the dissertation to all committee members. Upon approval, a second defense must be scheduled and successfully delivered. An electronic copy of the final dissertation must be submitted to the Graduate Programs Administrator, along with a completed DISSERTATION TRACKING FORM 5.

Rejection | The committee will meet with the candidate and decide how to proceed.

**Submission and Publication of the Dissertation**

The dissertation must conform to University guidelines for style and format. The Office of Graduate Studies has provided a detailed manual for organization and style which can be found [here](http://www.umb.edu/academics/graduate/info_for_graduate_students/graduating_from_umass_boston/theses_dissertations)⁹. Students are required to order at least two bound copies of the dissertation: one for the program office and one for the Healey Library. It is strongly recommended that students also order one copy for their dissertation chair, though students may consult their chairs and other committee members on a case by case basis.

---

⁹[http://www.umb.edu/academics/graduate/info_for_graduate_students/graduating_from_umass_boston/theses_dissertations](http://www.umb.edu/academics/graduate/info_for_graduate_students/graduating_from_umass_boston/theses_dissertations)
Deadlines for Submission

By 5:00 PM on the dates below, you must submit a copy of your defended and revised dissertation, approved in full for content by your program, to the Office of Graduate Studies (OGS) via the UMass Boston/ProQuest/UMI ETD website. If the date given falls on a weekend, the deadline transfers to the Monday following that date.

- December 1 for a December degree date
- April 10 for a June degree date

By 5:00 PM on the dates below, you must submit a copy of your final dissertation approved in full for format by your OGS format editor via the UMass Boston/ProQuest/UMI ETD website. If the date given falls on a weekend, the deadline transfers to the Monday following that day.

- December 20 for a December degree date
- May 15 for a June degree date

V. STUDENT STATUS

A. Full-time vs. Part-time Status & Continuous Enrollment

The University defines full-time status for graduate students as enrollment in at least 9 credits per semester. First-year doctoral students take 10 credits their first semester (3 3-credit courses plus 1-credit ProSeminar) and nine credits the second semester. The program is designed with an expectation that students take 12 credits each semester for the second year and the first semester of the third year. The second semester of the third year students will take nine credit hours.

Part-time students are expected to enroll in 6 credits per semester for the first five years of the program to ensure adequate degree progress. This is especially important because it ensures timely completion of the comprehensive exams, which are only offered once per year and may only be taken upon completion of requisite coursework, usually at the end of third year.

The University requires that each matriculated student maintain continuous registration until the degree has been formally awarded. If the student does not register for courses or dissertation credits during any semester, they must pay a program fee during each semester of continuation in the program which is currently $225 per semester. Students who do not stay continuously registered and do not register for and pay the program fee for any semester are moved to “discontinued” status by the Registrar and are required to file a Readmission Application (see Appendix) and pay back program fees for each unregistered semester (up to four) in addition to a $100 late fee and a $60 readmission fee.

The University considers graduate students engaged in dissertation research as full-time students even if they are registered for less than 9 credits per semester or are enrolled in program fee.

PLEASE NOTE that for loan deferral purposes, lenders do NOT consider less than 9 credits to be full-time enrollment. For students who need to continue to defer academic loans, they must
contact the Graduate Programs Administrator and request that a letter from the department stating their full-time status be sent to the Registrar by the registration deadline. The Registrar’s Office will notify lenders of the student’s full-time status for loan deferral.

B. Tuition, Fees and Financial Aid

**Tuition and Fees**

A complete breakdown of current tuition and fee charges is posted on the Bursar’s website\(^{10}\), please note that Massachusetts residents are billed differently than out-of-state students.

**Breakdown of Tuition and Fees**

<table>
<thead>
<tr>
<th>Graduate Tuition and Fees: In State Resident</th>
<th>Graduate Tuition and Fees: Non-Resident</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost per credit</td>
<td>Full time (12 credits)</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Tuition</td>
<td>108.00</td>
</tr>
<tr>
<td>Combined Mandatory Fees</td>
<td>34.50</td>
</tr>
<tr>
<td>Education Operations Fee</td>
<td>529.20</td>
</tr>
<tr>
<td>Total Tuition &amp; Fees:</td>
<td>$671.70</td>
</tr>
</tbody>
</table>

**Tuition Remission for State Employees**

Commonwealth of Massachusetts employees are eligible for free tuition at state colleges and universities. State employees will be required to pay for all fees and books. For information on how to apply, contact your employer’s Human Resources Department.

\(^{10}\) [http://www.umb.edu/bursar/tuition_and_fees/](http://www.umb.edu/bursar/tuition_and_fees/)
Grants & Loans

**TEACH Grant Program**
- federally-funded program
- stands for The Teacher Education Assistance for College and Higher Education (TEACH)
- provides up to $4,000 per year or $8,000 total for a 2-year, graduate program
- based on your FAFSA application
- intended for students who will teach full-time in high-need subject areas for at least four years
- must serve students from low-income families
- part-time students are eligible for the grant at a reduced level
  - requires completion of one or more UMass Boston TEACH Grant Program forms

**Loans**

Many graduate students depend on loans to meet education and living expenses. You must be enrolled at least half-time (6 credits or more) to be considered for student loans. Be cautious of your total loan liability and your repayment obligations.

**Federal Perkins Loan**
- federally-funded program
- low-interest (5 percent) loan
- Based on exceptional financial need

**Federal Direct Subsidized Loan**
- eligibility based on financial need
- interest does not accrue while enrolled at least half time
- the federal government "subsidizes" (or pays) the interest
- maximum amounts per school year apply

**Federal Direct Unsubsidized Loan**
- federally guaranteed loan that is not based on financial need
- interest accrues from the time the loan is disbursed to the school
- not required to make interest or principal payments until six months after graduation, or six months after you drop below half-time enrollment

**The Federal Direct PLUS Loan for Graduate or Professional Students**
- a low interest, credit based loan
- borrow directly from the U.S. Department of Education
- must be enrolled at least half-time
- not required to make interest or principal payments until six months after graduation, or six months after you drop below half-time enrollment

**Alternative Loans from Private Lenders**
- a credit-based loan from a private lender or other financial institution
- can be costly and should be considered as a last resort

For more on Financial Aid for UMass Boston graduate students, visit the [Financial Aid and Scholarships](http://www.umb.edu/admissions/financial_aid_scholarships) website.

---

12 [http://www.umb.edu/admissions/financial_aid_scholarships](http://www.umb.edu/admissions/financial_aid_scholarships)
C. Graduate Assistantships

Full-time students accepted into the program are offered three years of full support, which includes a modest stipend, full waiver of tuition and educational operations fees, and a credit to cover most of the University-offered health insurance in exchange for 18 hours per week of administrative, research or teaching assistant support.

For students that do not wish to commit to a full assistantship, partial assistantships are awarded on a pro-rated basis in ¼, ½ or ¾ time assistantships. These assistantships come with a pro-rated stipend, educational operations fee waiver and health insurance benefit corresponding to the level of support. A full tuition waiver is included with all levels of support.

**PLEASE NOTE:** acceptance of a partial assistantship during the first three years does not guarantee students any level of support beyond their first three years of study. Support is guaranteed during the first three years of matriculation only.

The Graduate Assistantship is considered a form of income and must be treated as such for the purposes of loans, scholarships, tax reporting, and any other financial considerations.

**Assistantships beyond Guaranteed Support**

Students who have used all guaranteed support and have not yet completed coursework may request to be considered for partial assistantships from the department. Requests will be considered based on financial need, availability, and history of satisfactory performance in previous assistantships.

**Applying for an Assistantship**

First year students and students continuing a previous assistantship need not apply for the position. For new assistantships, however, positions will be posted through the Office of Graduate Studies, and students will be required to apply.

**Assistantship Expectations & Evaluation**

While every effort is made to assure that assistantships provide valuable learning experiences for students, some assignments and a portion of the work for most assignments will consist of administrative tasks such as library searches, duplicating materials, conducting work for the department, etc. In order to prevent misunderstandings, the Program urges faculty supervisors and students to develop a written agreement early each semester as to the nature of the work expected (a sample form, LETTER OF UNDERSTANDING, GRADUATE ASSISTANTSHIPS is provided in the Appendix).

At the end of each assignment, student assistants will be evaluated on dependability, initiative, quality and quantity of work, relations with others, judgment, attendance and overall performance. This evaluation, along with the student’s assessment of his/her own assistantship experience, will be considered before awarding future assistantships (a sample GRADUATE ASSISTANTSHIP EVALUATION FORM is provided in the appendix). Unsatisfactory performance in
an assistantship may result in termination from the assistantship, and forfeit of any guaranteed future funding.

First Year Fellowship

An additional First Year Fellowship is awarded to new PhD students during their first year of enrollment in the program. The fellowship is awarded in two taxable installments of $1,000 each at the end of the add/drop periods of the fall and spring semesters. Fellowships will be sent to the Bursar’s Office and applied to each student’s bill. Excess funds from this fellowship will be awarded to students via check, available for pick up in the Bursar’s office.

D. Academic Progress

1. Required Grade Point Average

All graduate students must make satisfactory progress toward completion of the degree within the Statue of Limitations (8 years). All graduate students must maintain a GPA of 3.0 or higher. University policies state that “a student who has two semesters, consecutive or otherwise, with a GPA of 2.8 or below, may be dismissed from the program. Graduate students whose cumulative grade point average falls below 3.0 will automatically be placed on academic probation. While on academic probation, a student shall be ineligible to hold office in any recognized student organization or recognized professional association, to represent the university in any sense on or off campus, or to hold a graduate assistantship. Students will be removed from academic probation either when their cumulative grade point average meets or exceeds 3.0 or upon approval of a formal request by the relevant graduate program director to the Dean of Graduate Studies. A student who in any two semesters, consecutive or otherwise, has been placed on academic probation is subject to academic dismissal upon recommendation of the graduate program director to the Dean of Graduate Studies.

2. Incompletes

A grade of Incomplete (INC) is not automatically awarded when a student fails to complete a course. Incompletes are usually awarded when satisfactory work has been accomplished in the majority of the course and the student is unable to complete course requirements due to circumstances beyond his/her control. Incompletes are given at the discretion of the instructor. The student must negotiate with and receive the approval of the course instructor in order to receive a grade of Incomplete. In most cases, incomplete grades from the fall semester should be finished prior to the start of the spring semester and vice versa, regardless of University policy which allows up to one calendar year to finish them.

In all cases, a student can obtain credit for an Incomplete only by finishing the work of the course before the end of the calendar year from the time of enrollment in that course. (In other words, if a student receives an incomplete grade for a fall course, the grade would need to be changed by the end of the grading period the following fall.) The initiative in arranging for the removal of an Incomplete rests with the student. At the end of this period, if a grade is not submitted, an “IF” (incomplete/failure) grade will be recorded, and the student will be required to register and pay for the course again in order to complete the course.
Students with Incomplete work in more than one course may be suspended from the program. Specifically, they may not be allowed to enroll in other courses until such time as all incomplete work from the prior year has been made up. A student with three or more Incomplete or INC/F grades is subject to a registration hold and may not register without permission from the Dean of Graduate Studies.

Any graduate student who has accumulated 4 or more INC or IF grades will be considered not to be making satisfactory progress toward the degree, will be placed on academic probation, and will normally be barred from registering for additional classes until the INC/IF grades are cleared. Students will be removed from academic probation either when their INC/IF grades are cleared or upon approval of a formal request by the relevant graduate program director to the Dean of Graduate Studies.

Course Audit Policy
A graduate student may audit any class on a space-available basis, but may not use that course to complete any degree requirement. Registration for audits is not permitted during pre-registration. To register as an auditor, a student must complete the regular registration or add/drop form (including written permission from the instructor to audit the course), write “AUD” in the course credit column, and submit the form to the Graduate Programs Administrator and Registrar’s Office by the end of the add-drop period. Once the course is designated “AUD,” the student cannot receive a grade for it. Students are assessed full tuition and fees (including lab fees) for an audited course. Conditions for the audit are negotiated by the student and the instructor.

Retaking a Course
A student may repeat any course, provided the student has not taken and passed a more advanced course for which it is a prerequisite. The course may be repeated regardless of the grade received, but there may be only one such repetition. If a student repeats a course, both grades will appear on the student’s transcript, but only the second grade will be computed in the student’s cumulative average.

3. Academic Review

The Academic Affairs Committee will review 1st year student progress at the end of each academic year. After such a review, the Committee will inform each student in writing who is not meeting minimum academic standards and will prescribe a course of action to be completed in order to remedy the situation.

Non-compliance with University and program standards will result in suspension from the program. Re-instatement will be conditional upon the successful completion of all outstanding work and the approval of the Graduate Program Director.

E. Students with Disabilities

The Program encourages any student with a disability to self-identify early in his/her enrollment in the program. The program works closely with the Lillian Semper Ross Center for Disability Services to determine necessary accommodations in compliance with Section 504 and the ADA.
Early identification and planning with the Academic Affairs Committee and program faculty are strongly encouraged.

Students with disabilities are not waived from core program requirements or policies, but accommodations and adjustments are available based on documentation on individually demonstrated need. The Ross Center makes available auxiliary aids and related support services and informational resources. These may include:

- Test Taking Accommodations
- Alternate Formats: Taped Materials, Text on Computer Disc, or Enlarged Text
- Note Takers
- Sign Language Interpreters
- Referral to Adaptive Computer Lab
- Referral to Priority Registration
- Information and Resources

Students who wish to receive disability-related services should contact the Ross Center, document the disability, and request services (location: CC-2-2010; 617-287-7430).

VI. MISCELLANEOUS

A. Department and University Resources

Graduate Student Study Space

The Department of Public Policy and Public Affairs has a common student-only office and lounge in McCormack Hall, third floor. Room 412 is the location of the computer lab. Room 435 is the location of the lounge and space for peer tutor/mentoring.

Conference Room

The Department of Public Policy and Public Affairs has a conference room in McCormack Hall, third floor, room 440. It seats up to 18, and has a telephone for conference calls and outlets for high-speed Internet access. Access to this room is managed by the Department Administrative Assistant.

Healey Library

All UMass Boston graduate students are eligible to borrow through the Healey Interlibrary Loan program, and have borrowing privileges at the libraries belonging to the Fenway Consortium. Graduate students also have access to free document delivery services. Further information about library resources can be obtained from the Library staff or their web page.

Computer Labs and Printing Privileges

13 http://www.umb.edu/library/
The Department of Public Policy and Public Affairs has a computer lab in McCormack Hall, third floor, room 414. This room has nine computer workstations, desk space for three laptop computers and a printer. This room is available 24 hours a day, seven days a week. It is accessible with a key or and key code, provided by the Graduate Programs Administrator.

The Healey Library hosts a computer lab for graduate students on their 5th floor. All graduate students of the university are free to access this lab during the library’s regular working hours. Each student is also entitled to 200 pages of free printing in the library, as well as one free professional/conference poster printing per semester. Present your student ID and the library staff will print it for you. The contact person is Carlos Lobato, 617-287-5261 or Carlos.Lobato@umb.edu. The main number to the graduate lab is 617-287-5272.

Student Life

Visit Life on Campus14 for information on campus life and community benefits, such as student housing, clubs and organizations, student IDs, dining services, health services, student news, athletics & recreation, parking, the interfaith campus ministry, links to blackboard, the bookstore and the library, discount tickets to museums, cinemas, sporting events and various shows, and much more!

Additional Resources

Graduate Student Assembly (GSA)
GSA is UMass Boston’s graduate student government representative assembly. Visit their website15 for more information.

Writing Resources
Many writing resources and links, including information on UMass Boston’s Graduate Writing Center, can be found on our Student Resources16 website.

Career Services at UMass Boston
UMass Boston offers its own career counseling services, available to all students and alums. Create a MyCareer Online account at https://www.myinterface.com/umb/student/ to access the on-line resource library, search for jobs, and sign up for various workshops on resume, cover letter and interviewing skills.

Individual career counseling services are also available on campus. The role of Career Counselor for the McCormack Graduate School is currently being covered by Mark Kenyon, Director of Career Services and Internships. Feel free to contact him at mark.kenyon@umb.edu for career and job advice.

B. Graduate Research, Fellowships, Scholarships, and Grant Information

14 http://www.umb.edu/life_on_campus/
15 http://gsaumb.wordpress.com/
16 http://www.umb.edu/academics/mgs/publicpolicy_publicaffairs/student_resources/
The Office of Research and Sponsored Projects, located on the second floor of the Administration Building, provides assistance to graduate students seeking financial support for their dissertation research. Through their computerized network, they match students’ interests with eligible fellowships, grants and other monies.

In addition, the Program routinely posts listings of internships, fellowship, scholarship, and grant opportunities.

C. McCormack Scholars Program:

Students selected as Scholars should be notified as such when they receive their initial call from a faculty member. Here are some key takeaways about the program faculty should mention:

- Recognition of academic/professional excellence and future potential.
- One-time $2,000 award to support research, professional development, or tuition (the latter relevant only for master’s students)
- Joining an interdisciplinary community of Scholars from across the college.
- Expectation to serve as an ambassador of the McCormack Graduate School.

The Dean will email all accepted McCormack Scholars to congratulate them on their award and provide more high-level information about the program.

Once students accept their offer of admission, the dean’s office will follow up with specifics about the award and associated responsibilities. If admitted students have questions about the program during their decision-making process, you can direct them to the Assistant Dean Justin Maher at Justin.maher@umb.edu / 617-287-5553.

D. Department Seminars

The department hosts job talks and research seminars once a month. Seminars are open to the Public Policy community. First and second year students are required to attend, and attendance by all students is strongly encouraged. Refreshments are provided. Each talk is followed by a light discussion and social hour.

VII. COURSE DESCRIPTIONS

A. Core Interdisciplinary Courses

**PPOL-G 601 & 602 Political Economy I & II**
This two-semester multi-disciplinary course sequence explores the basic social and economic underpinnings of public policy development, particularly as it relates to social, political and economic inequities. These two courses primarily take a historical and theoretical perspective to inform other more applied classes in the program. Major units include the theory of scientific inquiry; views of human nature; the history of ideologies and institutions; political theory and philosophy; theories of justice and the conservative, liberal, and radical paradigms regarding the role of the state, race, gender, and class.

**PPOL-G 611 & 612 Foundations of Public Policy Analysis I & II**
This two-semester course makes use of both a theoretical and a case study approach to examine various ways of looking at public policy analysis, evaluation, and implementation. The course seeks to introduce the student to the general methods used in formulating and analyzing policy. Major units in this course cover the history of policy analysis, theories of the policy process, the role of social construction, institutions, interests and values in policy, organizational theory and leadership, the determination of policy goals and objectives, and various analytical and empirical frameworks for analyzing policy and its implementation.

**PPOL-G 621 & 622 Economics for Policy Analysis I & II**
This two-semester course sequence is devoted to exploring the basic economics of policy analysis from both a microeconomic and macroeconomic perspective. Approximately two-thirds of the units are related to micro subjects with the remaining third covering macro issues. The course is taught from both a theoretical and case study perspectives. As with traditional graduate economics offerings, the micro/macro sequence begins with the foundations of household and firm behavior. Units in this course include: production decisions; the theory of consumer choice; market structures; discrimination; the simple analytic of welfare maximization; public sector economics including expenditure analysis, taxation, and regulation; theories of externalities and public goods; tax incidence; and the principles of cost-benefit analysis. The macroeconomic units include: theories of income determination, income distribution, and the problem of unemployment; the workings of financial markets and interest rate structures; the impact of macroeconomic policy on state and local government; and the constraints placed on domestic policy as a result of the internationalization of the economy.

**PPOL-G 716 Pro-Seminar**
This course is designed to help students navigate their first year in the PhD program in public policy and introduce them to the professional world of scholarship in public policy. Pro-Seminar works to build a supportive community that helps students grow as public policy researchers. Students are encouraged to participate actively in this seminar and to raise issues and suggest topics that address their interests as they develop through the semester.

Pro-Seminar is a one-credit course that meets one hour each week. Once per month, the seminar will host a research talk for the department of public policy and public affairs, which will be followed by a reception where students will have the opportunity to meet faculty and students in other cohorts.

**PPOL-G 740 Political Institutions**
This course examines the American political system at the national, state, regional and local levels with attention to a critical examination of the construction of policy analysis in social science and the ways in which analysts understand policy goals and the workings of policy making. Analytic perspectives considered include: institutional, historical, legal, information-centered, market-based, and political economy approaches. Students will examine how the various levels of government act and interact in the formation of public policy and how political outcomes are affected by the political participation of individuals, interest groups, communities, and political parties.

**PPOL-G 760 Sociological Perspectives on Public Policy and Social Justice**
This course introduces students to sociological perspectives relevant to the study of public policy with a focus on the relationship between public policy and social justice. We will focus on theoretical and empirical work from core aspects of the sociological discipline including urban sociology, political sociology and stratification. The course will cover the following topics:

- How do various sociological traditions understand the role of the state and public institutions in relation to structures of inequality in society? Under what conditions do public institutions reproduce social inequality, act as agents of social control, work as a force for greater equity and inclusion, or otherwise support or oppose movements for social justice?

- How have contemporary processes of social inequality, such as concentrated poverty, educational failure, mass incarceration and undocumented peoples, presented new challenges to equity-oriented policy-makers?

- In what ways have marginalized populations organized to influence public policy to address inequality and to advance equity and social justice?

- What models exist for researchers and policy-makers to collaborate with community-based organizations and for citizens to participate in the formation and implementation of public policy more generally?

This course is designed as a seminar, where the professor serves as a guide and commentator on a set of texts that students examine. We will work to build a learning community in the classroom where students support and challenge each other. Students will be required to explore a theoretical or policy issue relevant to the course through a piece of original research. The course will primarily (although not exclusively) focus on the public policy/social justice relationship in the U.S. context. But students, in their research projects, are welcome to pursue their own interests internationally or comparatively.

B. Core Research and Quantitative Methods Courses

**PPOL-G 604 Statistics I**
This course is the first in a two-semester sequence. It begins with a basic review of graphical analysis and descriptive statistics. Subsequent topics include the fundamentals of probability theory, basic statistics and the logic of hypothesis testing. The course concludes with an introduction to the basic linear model. As is true for all of the methods labs, the course makes frequent use of case studies, examples, and computers.

**PPOL-G 605 Statistics II**
This lab course is devoted almost exclusively to a study of multiple regression and time series analysis methods, focusing on regression diagnostics and remedies. Topics include weighted least squares and non-linear transformations, the special nature of dummy variables, and the particular problems associated with serially correlated errors in time series models. An introduction to logic and other analysis is also provided.

**PPOL-G 630 Research Methods I**
This course will provide the conceptual and practical foundation for policy research and program evaluation. Students will develop an understanding of the fundamental concepts and problems involved in designing research.

**PPOL-G 704 Research Methods II**
This course provides an overview of quantitative research techniques not explored in previous courses. The course explores theoretical issues, application of methods, and a critical examination of applied research using these techniques on specific public policy issues. Topics explored include: public policy program evaluation and design, sensitivity in statistical research, multivariate regression analysis, and time-series analysis.

**PPOL-G 891 Dissertation Workshop**

This course assists students in preparing their dissertation proposal as well as in the design, writing and data collection phases of the dissertation process. Students are expected to complete a dissertation proposal by the end of the course. Emphasis will be placed on conducting effective research and reasoning techniques, and the utilization of effective communication skills. Research topics include acquiring an understanding of selecting an effective dissertation topic, collection of data, use of appropriate methodologies, and selection of dissertation advisor and committee members.

While in progress, this courses will be graded Y (in progress); upon satisfactory completion, a letter grade will be issued.

C. Elective Courses

Electives are offered on a rotating basis depending on student interests and faculty availability.

**PPOL-G L609 Qualitative Methods**

This advanced research methods course provides students with an intensive knowledge of the theory and practice of qualitative research. Readings and discussion focus on the theoretical foundations of qualitative methods with emphasis of their practical relevance for public policy. The course is geared to enable students to learn the underlying logic of the various ways of conducting qualitative research, as well as to develop skills in moving from description to theory-building with qualitative data. Through class assignments and activities, students will become familiar with key aspects of qualitative research design, as well as issues related to reliability, validity and the ethical dimensions of qualitative research.

**PPOL-G 743 Social Welfare Policy**

This course studies social welfare policy narrowly defined as the alternative plans, decisions, choices and actions of the public sector that have a direct impact on the material welfare of socially and economically disadvantaged citizens by providing them with services and or income. The central core of programs included under this definition is: social insurance, public assistance, health and housing services.

**PPOL-G 744 Community Political and Economic Development**

This course explores the complex relationship between economic development policy and socio-cultural and political processes at the community level. Students will examine global trends and local economic conditions using a range of theoretical approaches. Short case studies are used to survey local policy responses to the pressures of economic decline. This will provide an empirical basis for evaluating the explanatory adequacy and policy implications of the theories. Finally, analysis of the role of grassroots organizations, leadership, and populist movements in shaping alternative approaches to economic development will be undertaken.
PPOL-G 745 Advanced Quantitative Research Methods
This class extends the student’s knowledge of statistical techniques for use with social science data beyond that learned in PPOL-G 605. The goal of this lab is to deepen the student’s understanding of multiple regression estimation by further examination of problems associated with choosing a proper model and estimating its parameters. As with the other methods courses, the course has a strong practical bias with the emphasis on statistical and econometric theory kept to a minimum.

PPOL-G 746 Geographic Information Systems for Public Policy
The purpose of this course is to learn principles and applications of GIS to support doctoral-level research in public policy, public administration, public affairs and urban and regional planning, with a particular focus on spatial data collection and analysis for urbanized regions within the greater Boston area. The goal of this course is to enable students to identify spatial characteristics of diverse application areas, to build maps that integrate diverse data sources, formats and displays, to perform spatial analyses, and to integrate spatial thinking and GIS analysis into their own research topics.

PPOL-G 747 Law and Public Policy
This course examines the intersection of law and public policy from a variety of theoretical perspectives. Focusing primarily on the policy ramifications of appellate court decisions, the course will cover both constitutional and statutory law topics, such as mandatory school desegregation and environmental regulation.

PPOL-G 748 Topics in Health Care Policy
This course is concerned with the determinants of health policy in the US, including the decisions and non-decisions made by institutional and political actors at all levels of government, and by private sector actors. The course covers the failure of health care reform in the US; the marketizing, corporatization, and commodification of health care; comparisons with Western European nations; and topics in the assessment of health care quality.

PPOL-G L749 Scientific and Political Change
(formerly titled: Science, Technology and Public Policy)
Although relatively few Americans have backgrounds in science or engineering, they are increasingly confronted with issues that are technically complex. This course explores the resulting tensions and asks how the needs for scientific expertise and democratic control of science and technology are reconciled. The first half of the course traces the historical development of American science policy and situates this development in comparative perspective. The second half focuses on contemporary controversies, including those over the nature of university-industry relations, patent policy, and the causes of expert/lay disagreements over risk.

PPOL-G 750 Human Rights and Public Policy
The course focuses on the relationship between public policy and human rights. Its concerns encompass the following questions: how does one define and understand human rights? What are the grounds for human rights emphases on the part of public policy specialists or professionals? What is the nature, scope and depth of issues that are pertinent to public policy
specialists? And, most important, how do the development, promotion and protection of human rights change the character and content of public policy as well as the nature of our individual and collective possibilities.

**PPOL-G 751 Public Policy Challenges: Urban Nonprofit Organizations**
Nonprofit organizations play a variety of important roles in urban areas. In addition to their well-known function as service providers (e.g. hospitals or neighborhood health clinics), nonprofit organizations offer an opportunity for self-expression, recreation, religious observation, political representation, or the pursuit of social change. Through multi-disciplinary readings, this course considers a variety of public policy issues related to the role of nonprofit organizations in American cities including: tax exemption, the increasing commercialization of the nonprofit sector, charitable choice provisions guiding the distribution of federal funds, and the role of nonprofit organizations in political advocacy.

**PPOL-G 752 Public Policy, Organizations and Social Change**
Organizations are at the heart of societal governance; they develop, contest, implement, and evaluate public policy. Organizations are also frequent targets of public policy, as sites that generate, reproduce, or sustain, social and economic inequality. Some organizations, such as community-based nonprofit organizations or advocacy groups can also act as agents of resistance and social change. This course will help students to develop an understanding of organizations and institutions, their sources of power, role in governance, and structures and processes, and explore their implications for public policy.

**PPOL-G L753 Epidemiological Thinking and Public Health**
This course is an introduction to the concepts, methods, and problems involved in analyzing the biological and social influences on behaviors and diseases and in translating such analyses into population health policy and practice. Special attention is given to social inequalities, changes over the life course, and heterogeneous pathways. Case studies and course projects are shaped to accommodate students with interests in diverse fields related to health and public policy. Students are assumed to have a statistical background, but the course emphasizes epidemiological literacy with a view to collaborating thoughtfully with specialists, not technical expertise.

**PPOL-G L755 Research in Special Education and Disability Policy**
Students will use current research to explore key topics that shape the policy and practice landscape for individuals with disabilities in schools, service agencies, and communities while applying skills to critically read and interpret the research. Topics include: notions of disability, self-determination and person-centered service delivery; access, participation and progress in general curriculum; standards and educational accountability; and opportunities for community inclusion and improved quality of life. Students will also critique/interpret the research to make policy and practice recommendations that are applicable to urban schools and service systems for leaders working with diverse groups of students and adults with disabilities.

**PPOL-G L756 Disability Policy and Practices Frameworks**
Focusing on the Americans with Disabilities Act, the Individuals with Disabilities Education Act, and the Elementary and Secondary Education Act, this course introduces students to the process by which these laws have been articulated, framed as regulations, put into practice and
interpreted through the appeals process. Students will learn to identify: the values and principles of stakeholders who bring the mandate to the point of legislation, the role of written and oral testimony in the policy cycle, and the ways in which policy is interpreted in practice at the state and local level as well as through appeals processes.

PPOL-G 797 Special Topics
Occasionally, special topics courses are offered to address specific needs of doctoral students. In recent years, the following special topics courses have been offered:
Urban and Metropolitan Policy
Education Policy

PPOL-G 780 & 781 Policy Planning & Program Development (“Practicum”) I & II
This two-semester course is taught as a practicum. Students work in teams providing professional services to public and non-profit agencies. The course focuses on the acquisition and application of techniques for policy planning, program development, and policy evaluation of both a technical and political nature. Depending on the year taught, students use a variety of qualitative and quantitative methods. The course begins with an examination of the substantive topic to be addressed, which varies year to year depending on the arrangement made with the partnering organization. and develops various models of planning, program development and evaluation. Through participation in carefully selected consulting projects, the course covers techniques of problem definition; goal setting; evaluating and selecting programmatic options; predicting social, economic and fiscal impacts; designing and testing pilot programs; implementation planning; and developing models and methods for public participation and constituency development. Ethical issues arising from policy planning and implementation are also considered. The specific focus and tasks vary from year to year. The course is designed to be an applied policy analysis experience that integrates theory, practice, and methods.

While in progress, these courses will be graded Y (in progress); upon satisfactory completion, a grade will be issued.

DISRES 625 Conflict, Organizations & Systems
Recommended elective for the Organizations and Social Change Concentration
This course examines different systems for managing conflict. The system may exist in a large corporation, or between two or among many nations, between labor and management, or within a family. The system may be explicit and clear, informal and invisible, or both. The system may be effective or not. The course explores a of conflict management systems and criteria for measuring their effectiveness; and discusses the analysis and design of dispute managing systems.

SOCIOL 601 Complex Organizations
Recommended elective for the Organizations and Social Change Concentration
This course provides a comprehensive introduction to the sociological study of organizations, including major classic and contemporary theories and important applied studies. Private for-profit organizations have served as the focal point for much organizational theorizing, so we will often study them as we learn about fundamental organizational processes. Public agencies and non-profit organizations influence our lives in many ways, including creating research projects
and jobs for many applied sociologists. Public agencies and non-profits will therefore frequently command our attention.

VIII. FACULTY DIRECTORY

Faculty in the Public Policy PhD Program may reside in the Department of Public Policy and Public Affairs ("departmental faculty") or in other departments and degree programs ("affiliated faculty"). Departmental faculty teach the majority of courses within the department and are primarily responsible for the research and teaching directions within degree and certificate programs offered by the department. Affiliated faculty teach within the Public Policy PhD program, perform program service, and advise doctoral students.

The following departmental and affiliated faculty members are associated with the Ph.D. Program in Public Policy. For more information, please visit http://www.umb.edu/academics/mgs/publicpolicy_publicaffairs/graduate/publicpolicy_phd/publicpolicy_phd/.

A. Departmental Faculty

**Michael Ahn**, PhD, *Syracuse University*
- e-Government
- e-Democracy
- Public Organization
- Quantitative and Qualitative Research Methods
- Comparative Public Administration
- Performance Management

**Christine Brenner**, PhD, *University of Texas at Arlington*
- Immigration Policy
- Urban Affairs
- Public Budgeting

**Connie Chan**, PhD, *Boston University*
- Mental Health Policy
- Racial and Ethnic Health Disparities
- Ethics

**Michael Johnson**, PhD, *Northwestern University*
- Housing and community development
- Human services
- Community-based operations research
- Decision support systems

**Heather MacIndoe**, PhD, *University of Chicago*
- Nonprofit Organizations
- Philanthropy
- Organizational Theory
- Public and Private Funding for Social Services

**Aroon Manaoharan**, Ph.D., *Rutgers University-Newark*
- E-governance and information technology
- Strategic planning and management
- Performance measurement and reporting
- Public management, organizational theory and behavior
- Intergovernmental relations, state and local government

**Amit Patel**, PhD, *George Mason University*
- Information communication technology and public health
- Quantitative Analysis
- GIS
- International housing policy

**Amy Smith**, PhD, *State University of New York at Albany*
• Public Management • Social Networks Impact on Regulatory Settings
• Organizational Behavior and Theory

Mark Warren, PhD, Harvard University
• Community organizing • Education reform • Race and racial justice • Faith-based initiatives

Christian Weller, PhD, University of Massachusetts Amherst
• Private Pensions • Social Security • Retirement Income Security • Wealth Inequality and Asset Development • Financial Institutions • International Economic Development

Mengzhong Zhang, Ph.D., Rutgers University-Newark
• Comparative public administration • Chinese public administration

B. Affiliated Faculty

Randy Albelda, PhD, University of Massachusetts Amherst
(Department of Economics)
• Political Economy of Gender and Race • Public Policy • Economics of Taxation • Labor Economics

Thomas Ferguson, PhD, Princeton University
(Department of Political Science)
• Public Policy • Government Studies.

Edward Miller PhD, University of Michigan
(Department of Gerontology)
• Aging and Long-term Care • Telemedicine and e-health • Intergovernmental Relations • Program Implementation and Evaluation • Medicaid

Erin O’Brien, PhD, American University
(Department of Political Science)
• Public Policy; Politics of Poverty and U.S. Social Welfare Policy • Stratification, Politics, and Policy • Political Behavior • Urban Politics and Policy • Research Methods and Epistemology • Theoretical Approaches to Public Policy • American Politics

Mary Huff Stevenson, PhD, University of Michigan
(Department of Economics, emerita)
• Urban Economics • Labor Economics • The Economics of Gender

Peter Taylor, PhD, Harvard University
(Critical and Creative Thinking Program)
• Science and Technology • Social Analysis of Environmental and Health Research • Reflective Practice
David Terkla, PhD, University of California Berkeley
(Department of Economics)
• Environmental and Marine Resource Economics • Regional Economic Development
• Public Finance

Miren Uriarte, PhD, Boston University
(College of Public and Community Service)
• Applied Sociology • Race and Ethnic Relations

Eben Weitzman, PhD, Columbia University
(Dispute Resolution Program)
• Intra-group Conflict in Mediation • Cross-cultural Conflict on Campus • Cultural Differences in Attitudes toward Conflict • Effects of Cooperation and Competition on Small Group Processes
• Computer-aided Data Analysis in Qualitative Research.

Some faculty are not formally affiliated with the Public Policy PhD program but contribute to the program through teaching, service and advising. They include:

Frank Porell, PhD, Carnegie-Mellon University
(Department of Gerontology)
• Outcome-based quality indicators of nursing home performance measurement • Disability risks of community elders • The hospitalization of nursing home residents • The market supply behavior of home healthcare agencies • The long-run consequences of sentinel injuries on elders

Lisa Rivera, PhD, Cornell University
(Department of Philosophy)
• Ethics • Political philosophy • Global ethics • Feminist theory

Kathrin Boerner, Ph.D., University of Trier
(Department of Gerontology)
• Adult development and aging • Coping with chronic illness • End-of-life • Bereavement

Cade Finoff, Ph.D., University of Massachusetts Amherst
(Department of Economics)
• Economic Development • Political Economy of Violent Conflict • Gendered Violence • African Development
University of Massachusetts Boston
Public Policy Ph.D.

Student Handbook

Appendix

APPROVAL OF ACADEMIC ADVISOR

PH.D. PROGRAM IN PUBLIC POLICY

The GPD of the Public Policy PhD program serves as the academic advisor for students during the first year of study. Students are required to choose an academic advisor for academic years two and beyond at the end of their first year. Students are responsible for completing this form, once an advisor is chosen, and obtaining the signature of the academic advisor. The form should
be filed with the Public Policy PhD Program Administrator once the form is completed and signed.

Students are strongly encouraged to choose academic advisors whose research interests overlap with their own. Students are also encouraged to look first to public policy departmental faculty for academic advisors; however, any faculty in the Public Policy PhD program may serve as an academic advisor.

Elective option chosen (check one):
☐ On-campus 600-level or above course
Name and number of course:  ________________________________________________________________
Register for course if approved by Faculty Advisor. No other action is necessary.

- On-campus 300-level or above course
  - Name and number of course:
  - Name of faculty member:
  - Signature of faculty member:

Register for an independent study with the faculty member; consult Program staff for the appropriate number. This professor agrees to provide and grade extra assignments to assure work is equivalent to doctoral level work and will obtain a Public Policy Independent Study number or forward the grade to the Public Policy Program to be credited.

- On-campus independent study
  - Type of work proposed:
  - Name of faculty member:
  - Signature of faculty member:

Register for Independent Study with the faculty member; consult Program staff for the appropriate number. This professor agrees to conduct an Independent Study with a specified amount of supervision and a written product and that s/he will assign a grade using a Public Policy Independent Study number.

- Off-campus informal audit

Register for Independent Study with a UMB faculty member; consult Program staff for the appropriate number. This indicates that the faculty member agrees to evaluate and issue a grade for assignments completed off campus. Please attach a copy of catalogue description and syllabus for the off-campus course.

- Institution: __________________________  Faculty Member: __________________________
- Name and level of course: __________________________
- Signature of UMB faculty member to provide credit: __________________________
- Student signature: _____________________________________________________________________
- GPD signature: _______________________________________________________________

Return agreement form in its entirety (with any attachments) to program staff.

INTERNERNSHIP PROPOSAL

PH.D. PROGRAM IN PUBLIC POLICY

Please print or type.

Student name: __________________________  UMS #: __________________________

Semester(s) :

Schedule/Hours for new internship: __________________________

Name of agency (new or prior): __________________________
Agency Supervisor (new or prior):

Name: ________________________________________________________________
Telephone: ________________________________________________________________
Email: ________________________________________________________________

Proposed or prior role/responsibilities:

Proposed focus of analysis:

Please attach any supporting materials.

Student signature: ____________________________ Date: ________________
Faculty* signature: ____________________________ Date: ________________
GPD signature: ____________________________ Date: ________________

*This faculty member has agreed to evaluate the student's internship and assign a grade at the end of the semester. 

Return proposal form in its entirety (with any attachments) to program staff.

GRADUATE ASSISTANTSHIP REQUEST

Student Name & UMS: ________________________________________________

Cohort/entering year: ______________

Type of assistantship preferred: □ Research □ Teaching
Level of assistantship preferred: ¼ (4.5 hours/week)* ½ (9 hours/week)* ¾ (13.5 hours/week)* full (18 hours/week)

*Please note that many of the benefits like stipend level, fee waivers, health insurance credit, etc. are pro-rated according to the level of funding you receive.

___ Check here if you are a current graduate assistant and wish to continue in the same assignment

Briefly describe your availability (days and times to engage in your assistantship assignment):

Brief description of research interests/career aspirations:

PLEASE LIST ALL OTHER ON-CAMPUS ASSISTANTSHIP, EMPLOYMENT OR OTHER FUNDING SOURCES FOR THIS ACADEMIC YEAR:
Please be sure to include how many hours per week each commitment entails, as well as the time period for each on-campus paid position.

LETTER OF UNDERSTANDING: GRADUATE ASSISTANSHIPS
PH.D. PROGRAM IN PUBLIC POLICY

Please print or type.

Student name: ________________________________________________________________

UMS number: ________________________________________________________________

Agreed upon weekly schedule (hours, times, days):
Responsibilities/tasks/deadlines:

Reporting schedule (when, to whom, how, etc.):

Type of supervision to be provided (by whom, schedule, etc.):

Logistics (location of work, access to computer and phone, etc.):

Other activities and possible benefits (conferences, travel, etc.):

Student signature: ___________________________________________ Date: ____________________

Faculty/Supervisor signature: ___________________________________ Date: ___________________

*Return agreement form in its entirety (with any attachments) to program staff.*
GRADUATE ASSISTANT SELF EVALUATION

PH.D. PROGRAM IN PUBLIC POLICY

Please return this self-evaluation to the Graduate Program Director by Monday, JUNE 13, 2016. Your supervisor will also complete an Assistantship Evaluation Form, and both forms will be shared with the GPD.

Name: ____________________________________________

Type of Assistantship:  O  Research   O  Teaching   O  Administrative

Assistantship site (center or institute, if applicable)__________________________________________

Supervisor(s):  __________________________________________

Dates of placement:  O  Fall  Indicate year:  __________________________________________

O  Spring  Indicate year:  __________________________________________

O  Other (specify dates):  __________________________________________

Description of assistantship assignment:
PART I:

Please write or type your responses to the following questions and attach to this page.

1. Describe the ways your performance met your expectations for this assistantship period.

2. Describe significant accomplishments that you would like to have considered for the current performance review. Consider listing accomplishments not originally covered in the work responsibilities section of the Letter of Understanding or contributions you have made to the advancement of the faculty members’ research and/or to the center or institute for whom you have worked.

3. Describe the areas of your job in which you have grown significantly, made progress on past challenges, and/or been able to use new learning, contacts, tools or methods for professional growth.

4. Describe any notable obstacles you have encountered in fulfilling the expectations of your position during the period under review. Can you suggest ways to remove those obstacles?

5. What are the areas in which you would like to grow professionally, and what kind of support, training, resources and/or assistantship assignment would you need to do so?
PART II

1. Participation in the intellectual life of the Department, College, and University. List cumulatively any lecture series, brown bags, seminars, workshops, symposiums, study groups, dissertation review groups, etc. that you have participated in regularly during your doctoral studies at the John W. McCormack Graduate School of Policy and Global Studies, with the most recent events first. Describe your level of participation in one sentence for each event or meeting listed. If you presented at any of these meetings, list the title and date of the presentation. Add lines to the table as needed.

<table>
<thead>
<tr>
<th>Name of event</th>
<th>Term(s)</th>
<th>Description of participation (include presentation titles &amp; dates if appropriate)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2. Participation in conferences, professional societies, or other external academic meetings. Provide the name, date, and location of all professional meetings which you attended during the course of your doctoral studies at the John W. McCormack Graduate School of Policy and Global Studies. Note whether you participated in some fashion in the meeting (e.g., as discussant for a paper, session moderator, etc.).

<table>
<thead>
<tr>
<th>Name</th>
<th>Date</th>
<th>Location</th>
<th>Description of participation (include paper titles if appropriate)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

3. Service to the department. Cumulatively list and briefly describe any service you have provided to the Department over the course of your doctoral studies at the John W. McCormack Graduate School of Policy and Global Studies. Examples would include serving as a Brown Bag organizer, member of a College or University committee, graduation marshal, etc.

<table>
<thead>
<tr>
<th>Service</th>
<th>Term(s)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

4. Plans for summer 201__. Describe how you intend to spend the upcoming summer. Note both your research and employment plans. Note how your summer activities will advance your progress toward the degree, if at all.
5. **Honors/Awards/Funding.** List cumulatively your honors, awards, and funding.

6. **Publications.** List cumulatively your publications in reverse chronological order. Please provide a complete citation.

7. **Special concerns or issues.** List any issues or concerns that have aided or impeded your progress during the last year. (If there are issues that you wish to share in confidence, please direct them to the Ph.D. director or department chair in a separate communication.)

FACULTY EVALUATION OF GRADUATE ASSISTANTSHIP
PH.D. PROGRAM IN PUBLIC POLICY

PLEASE RETURN TO THE PROGRAM ASSISTANT

Name of student: ____________________________________________

Type of Assistantship:

O Research  O Teaching  O Administrative

Assistantship site (center or institute, if applicable): ________________________________

Supervisor: __________________________________________________________

Dates of placement:

O Fall  Indicate year: ____________________________

O Spring  Indicate year: ____________________________

O Other (specify dates): ____________________________

Description of assistantship assignment:

Attitude – Application to Work

O Outstanding in enthusiasm
O Very interested and industrious
O Average in diligence and interest
O Somewhat indifferent
O Definitely not interested

Comments on attitude:

Dependability

O Completely dependable
O Above average in dependability
O Usually dependable
O Sometimes neglectful or careless
O Unreliable

Comments on dependability:

Initiative

Comments on initiative:
O  Proceeds well on his/her own
O  Goes ahead independently at times
O  Does all assigned work
O  Hesitates
O  Must be pushed frequently

Quality of Work

Comments on quality of work:

O  Excellent
O  Very good
O  Average
O  Below average
O  Very poor

Relations with Others

Comments on relations with others:

O  Exceptionally well accepted
O  Works well with others
O  Gets along satisfactorily
O  Has difficulty working with others
O  Works very poorly with others
O  Not applicable

Quantity of Work

Comments on quantity of work:

O  Unusually high output
O  More than average
O  Normal amount
O  Below average
O  Low output, slow

Judgment

Comments on judgment:

O  Exceptionally mature in judgment
O  Above average in making decisions
O  Usually makes the right decision
O  Often uses poor judgment
O  Consistently uses poor judgment
O  Not applicable

Attendance

Comments on attendance:

O  Regular
O  Irregular

Overall Performance

O  Outstanding
O  Very good
O  Average
O  Marginal
O  Unsatisfactory
Comments on overall performance (please include the student’s outstanding qualities as well as those that the student should strive to improve):

This report has been discussed with the student:  
O Yes  O No

Based on this review, would you recommend that the student continue to receive assistantship funding for next year?  
O Yes  O No

If yes, would you like to continue to be his/her supervisor?  O Yes  O No

Supervisor’s Signature:  ________________________________

Date:  ________________________________
Advanced Standing is awarded to students who are admitted to Ed.D. and PhD programs with a relevant graduate level coursework or a master’s degree in the same or related fields of study. Advanced Standing may waive a maximum of 36-credits for students upon admission (with the exception of clinical licensure programs requiring extensive prescribed credits at the master level). Courses are waived course-by-course based on equivalency and relevance. Courses must have been taken at an accredited institution, no more than seven years prior to matriculation at UMB, and received a grade of B or higher. The award of advanced standing cannot reduce the number of credits below 24-credits as part of the residency requirement including research hours and dissertation credits.

**TO BE COMPLETED BY STUDENT:** (please attach unofficial transcripts of all graduate coursework)

<table>
<thead>
<tr>
<th>Student Name: _______________________________</th>
<th>UMS#: _______________________________</th>
</tr>
</thead>
<tbody>

**TO BE COMPLETED BY GPD:**
### Transfer Course

Transfer Course: Needs course number and credits. (Courses listed in the section will be given the exact equivalency of an UMass Boston course).

### Waived Course

Waived Course: Needs (WV) may or may not have credits. (Courses in this section will be waived, meaning the student is exempt from taking the course or fulfilling the requirement).

### GPD Comments

GPD Comments:
PRIOR AND INDEPENDENT LEARNING REQUEST

PH.D. PROGRAM IN PUBLIC POLICY

Please print or type. Date submitted: ____________________________

Student Name: __________________________________________________________________________

UMS Number: __________________________________________________________________________

Insert course number, title and faculty member who teaches the Public Policy Course for which you are requesting a waiver. (NB: Students should register for the course noted below.)

PPOL G __________________________

Professor: __________________________________________________________________________

Please attach a written petition to the faculty member requesting independent evaluation and explaining the basis for the request. Limit your request to one typed page.

************************************************************************************

PRELIMINARY FACULTY REVIEW: ○ Approved pending negotiations with student
Faculty decision: (check one): ○ Disapproved for the following reason(s):

************************************************************************************

If approved above, PLEASE COMPLETE FOLLOWING THE MEETING BETWEEN STUDENT AND PROFESSOR:

Date of conference: ______________________________________________________________________

Specify evaluation criteria and standards:

Please sign acknowledging agreement to the evaluation criteria and standards noted above.

Student signature: ______________________________________________________________________

Faculty signature: ______________________________________________________________________

GPD signature: ______________________________________________________________________

Note: Faculty member should make sure student’s name appears on roster and should submit a grade along with regular semester grades.

Return request form in its entirety with attachment to program staff.
DISSERTATION TRACKING FORM 1

Stage 1 - Notification of Candidacy

Students should complete and forward the appropriate portion of this form to their Graduate Program Directors for approval. The GPD will then forward to the Office of Graduate Studies at each stage of the dissertation process. Signed copies will be returned when notification of each stage is received and approved, if required, by the Dean of Graduate Studies.

Submit when a student has passed the preliminary or comprehensive examination and is ready to begin working on a dissertation proposal.

## PRO-RATED FINANCIAL AID

**Assistantships in the PhD Program in Public Policy**

All full-time students in the PhD Program in Public Policy are offered full support during their first three years of study. Students may decline all or part of their assistantships during this time, however, declination of any assistantship during the first three years of study does not guarantee the student any support beyond their first three years of study.

<table>

</table>

* The fellowship award is granted in two equal payments of $1000 each, distributed following the add/drop period in the fall and spring semesters. This award is only available to first year students.

** In accordance with the State of Massachusetts “Qualifying Student Health Insurance Program” (QSHIP), all matriculating graduate students who carry seven (7) or more credits must carry health insurance. Therefore, if you do not have health insurance under another plan with “comparable” (that is equal or better) coverage, you are required to purchase the UMass Boston Student Health Insurance Plan.
